Entries are cross-referenced to their differential diagnoses. Numbers in *italics* refers to tables.

A

abscesses
  oral 141, 145
    see also cysts
  oral soft-tissue 128
  periodontal *see* actinomycosis
  soft-tissue *see* sarcomas
acanthosis nigricans *see* denture stomatitis; drug-induced gingival overgrowth; hairy tongue
acatalasia *see* Langerhans cell histiocytosis
actinic cheilitis 2–3
  see also contact cheilitis; exfoliative cheilitis; plasma cell cheilitis
Actinomyces israelii 4
actinomycosis 4–5
  see also oral soft-tissue abscess
Addison disease *see* drug-related mucosal pigmentation; metal depositions; smoker's melanosis
adenitis, cervical 71
adenocarcinomas, salivary gland 6–7
adenomas 195–6
  monomorphic *see* adenocarcinomas, salivary gland
  pleomorphic 25
    see also adenocarcinomas, salivary gland; extramedullary oral plasmacytoma
agranulocytosis 8
  see also aspergillosis; cyclic neutropenia; leukemias; mucormycosis; necrotizing ulcerative gingivitis; necrotizing ulcerative periodontitis; noma; scurvy; uremic stomatitis
Albright syndrome *see* drug-related mucosal pigmentation; smoker's melanosis
alcohol 18, 68, 99, 135, 159
allergies 143, 191
  dental materials *see* dental amalgam contact stomatitis
  stomatitis *see* stomatitis, allergic
amalgam
  tattoo 9
    see also malignant melanoma; metal depositions; smoker's melanosis
amalgam contact stomatitis 51
  see also cinnamon contact stomatitis
5-aminosalicylic acid (5-ASA) 44
amphotericin B 185–6, *186*
amyloidosis 10–11
  oral *see* angina bullosa hemorrhagica
  primary (AL) 11
    see also Sjögren syndrome
  secondary (AA) 11
  see also drug-induced gingival overgrowth; plasminogen deficiency, gingival lesions; sarcoidosis
anaerobic microorganisms 105, 126
ANCA 177
anemia 18, 21, 44
  aplastic *see* agranulocytosis; cyclic neutropenia; leukemias; noma; scurvy; uremic stomatitis
  iron-deficiency 76
    see also glossodynia; Sjögren syndrome
  pernicious 76
    see also glossodynia; oral submucous fibrosis
anesthetics 191
angina
  bullosa hemorrhagica 12
    see also epidermolysis bullosa acquisita
  Ludwig 105
angiocentric T-cell lymphomas 13
angioedema *see* cheilitis granulomatosa; dermatomyositis; Melkersson–Rosenthal syndrome; mumps; orofacial granulomatosis; peripheral facial nerve palsy
angiomatosis, bacillary 21
angiosarcomas 150
angiotensin-converting enzyme (ACE) 148, 153
angular cheilitis 14, 30–1, 44, 135
  see also ariboflavinosis
anorexia nervosa 41, 135
antibiotics 58, 67, 81, 181–3
antibodies
  anti SS-A (Ro) 155
  anti-DNA (ANA) 36, 152, 155
  anti-TNF 44–5
  antibasement 27
  heterophil 90
  SCL-70 152
antifungal agents 185–6
antigens 99, 103
antihistamines 190–1
antiinflammatory agents 139
  non-steroidal (NSAIDS) 58, 190
antimalarial agents 60, 112
antimicrobial agents 180–5
antineutrophil cytoplasmic antibodies (ANCA) 177
antinuclear antibodies (ANA) 36, 152, 155
antiviral agents 67, 186–8, *187*
aphthous stomatitis (RAS) 15–17
aphthous ulcers
  major 188
    see also eosinophilic ulcer
  recurrent (RAU) 15–17
    see also Behçet disease; bullous pemphigoid; cyclic neutropenia; drug-induced oral ulcerations; FAPA syndrome; hand, foot, and mouth disease; herpangina; herpes simplex virus; oral staphylococcus infection; pemphigus; squamous cell carcinoma; Sweet syndrome; syphilis; traumatic ulcer; tuberculosis
ariboflavinosis 18
  see also pellagra
arsenic poisoning 114
arteritis, giant cell *see* Wegener granulomatosis
arthritis 44, 92, 155
ascorbic acid 75, 154–5
aspergillosis 19–20, 185
  see also cryptococcosis; histoplasmosis; mucormycosis
Aspergillus flavus 19
Aspergillus fumigatus 19
autoimmune diseases
  chronic ulcerative stomatitis 36
  cicatrical pemphigoid 38
  dermatomyositis 55
  lupus erythematosus 106
  pemphigus 138
  pemphoid gestationis 136
  scleroderma 152
  Sjögren syndrome 155
  Sweet syndrome 163
autosomal dominant traits 48, 72
autosomal recessive disorders 144
azoles 185, *186*

biting, chronic *see* cinnamon contact stomatitis; hairy leukoplakia; leukoplakia
blastomycosis *see* histoplasmosis
blisters 38, 136
see also chancre, ulcers
blood dyscrasias *see* angina bullosa hemorrhagica
Borrelia vincentii 119
bowel disease 145, 163
buccal cellulitis 26
see also mumps
bullous mucocutaneous disease 138–40
bullous pemphigoid 27–8, 188–9
see also amyloidosis; angina bullosa hemorrhagica; chronic ulcerative stomatitis; cicatricial pemphigoid; dermatitis herpetiformis; drug-induced oral ulcerations; epidermolysis bullosa acquisita; erythema multiforme; lichen planus; linear IgA disease; lupus erythematosus; pemphigoid gestationis; pemphigus; radiation-induced oral mucositis
bullous pemphigoid antigens 27–8, 38, 103, 136
Burkitt lymphoma 29
see also Epstein–Barr virus; noma
burns *see* chemical burns; thermal burn

C

calculi, parotid ducts *see* mumps
cancrum oris 122–3
Candida albicans 30–1, 101
angular cheilitis 14
antifungal agents 185
candidiasis 30
denture stomatitis 52
hairy tongue 81
leukoplakia 99
median lip fissure 110
median rhomboid glossitis 111
candidiasis (candidosis) 30–2
erythematous *see* erythematous candidiasis
see also chemical burns; cinnamon contact stomatitis; dental amalgam contact stomatitis; furred tongue; geographic tongue; glossodynia; gonococcal stomatitis; hairy leukoplakia; hairy tongue; leukoplakia; lichen planus; nicotinic stomatitis; smokeless tobacco keratosis; syphilis; uremic stomatitis
carboxy-pyrrolidin-oxo-hexanoyl pyrrolidine-carboxylic acid (CPHPC) 11
carcinomas
adenocarcinomas 6–7
basal cell *see* leishmaniasis
squamous cell *see* squamous cell carcinomas
squamous cell, early *see* erythroplakia
verrucous 176, *see also* condyloma acuminatum

angular 14, 30–1, 44, 135
see also ariboflavinosis
contact *see* contact cheilitis
exfoliative 40, 69
see also contact cheilitis
glandularis 33
see also cheilitis granulomatosa; Melkersson–Rosenthal syndrome; orofacial granulomatosis; plasma cell cheilitis
granulomatosa 34
see also cheilitis glandularis; Crohn disease; Melkersson–Rosenthal syndrome
infectious *see* exfoliative cheilitis
lip licking *see* contact cheilitis
plasma cell 143
see also contact cheilitis; exfoliative cheilitis
radiation *see* actinic cheilitis
retinoids *see* exfoliative cheilitis
chemical burns 35, 191
see also candidiasis; chemical burns; furred tongue; gonococcal stomatitis; leukoplakia; thermal burns; traumatic ulcer
chemotherapy 53, 58, 124, 160–1
cherubism *see* Burkitt lymphoma
chondromas 25
chondrosarcoma 150
see also Burkitt lymphoma; dry socket
CHOP 29, 124
chronic ulcerative stomatitis 36–7, 188
see also cicatricial pemphigoid; epidermolysis bullosa acquisita; lichen planus; linear IgA disease; lupus erythematosus; pemphigus
cicatricial pemphigoid 38–9, 188–9
see also angina bullosa hemorrhagica; Behçet disease; bullous pemphigoid; chronic ulcerative stomatitis; dermatitis herpetiformis; drug-induced oral ulcerations; epidermolysis bullosa acquisita; erythema multiforme; lichen planus; linear IgA disease; lupus erythematosus; oral submucous fibrosis; pemphigoid gestationis; pemphigus; pericoronitis; radiation-induced oral mucositis; scleroderma
cinnamon contact
glossitis *see* geographic tongue
