Contents

I Evaluation of Head and Neck Trauma

1 Initial Management 2

First Aid at the Scene 2
Evaluation of Vital Functions 2
Stabilizing Vital Functions 2
Stabilizing Circulation 2
Emergency Care 2

Emergency Measures 3
Airways 3
Fall-Back of the Tongue 3
Injuries of the Larynx and Trachea 4
Hemorrhage 6
Central Hemorrhage 6
Peripheral Hemorrhage 9

Priorities in Trauma Management 10

2 Examining the Patient 11

Patient History 11

Inspection 11

Palpation 11

Functional Testing 12

Radiologic Diagnostics 13

3 Flow Charts and Checklists 15

Initial Management 15

Initial Evaluation 15

Injuries of the Neurocranium 16

Injuries of the Skull Base 17

Injures of the Ear and Lateral Skull Base 18
Injuries of the Facial Nerve 19

Craniofacial Injuries 20

Injuries of the Orbits 22

Dental Injury 24

Injuries of the Neck 25

4 General Principles of Trauma 27

Cutaneous Wounds 27
Pathomechanism and Classification 27
Wounds Caused by Mechanical Forces 27
Thermal and Chemical Wounds 29
Skin Healing 30

Osseous Injuries 31
Pathomechanism and Classification 31
Fracture Signs 31
Bone Healing 31
Direct (Primary) Fracture Healing 32
Indirect (Secondary) Fracture Healing 33
Pseudarthrosis 33
Fracture Treatment 33
Reduction 33
Fixation 33
Retention 33
Immobilization 33
Rehabilitation and Functional Therapy 34

Injuries of the Joints 34
Pathomechanism and Classification 34

Cartilage Injury 34
Pathomechanism and Classification 34
Cartilage Healing 34

Muscular Injury ... 34
Clinical Signs and Symptoms ... 34
Muscular Healing ... 34
Peripheral Nerve Injury ... 35
Pathomechanism and Classification ... 35
Neural Healing ... 35

II Diagnostic of Head and Neck Trauma

5 Injuries of the Neurocranium and Craniocervical Junction ... 38

Injuries of the Neurocranium ... 38
Open and Closed Head Injury ... 38
Clinical Signs and Symptoms ... 38
Diagnostic Imaging ... 39
Treatment ... 39
Injury to Bony Structures of the Craniocervical Junction ... 40
Anatomy and Pathomechanism ... 40
Clinical Signs and Symptoms ... 40
Classification ... 40
Diagnostic Imaging ... 42
Soft Tissue Distortion and Discoligamentous Injuries of the Craniocervical Junction ... 42
Pathomechanism ... 42
Clinical Signs and Symptoms ... 42
Classification ... 42
Clinical and Neurological Diagnosis ... 42
Imaging Modalities ... 44

6 Diagnosing Injuries of the Skull Base ... 45

Surgical Anatomy ... 45
Anterior Cranial Fossa ... 46
Middle Cranial Fossa ... 46
Posterior Cranial Fossa ... 46
Pathomechanism and Classification ... 46
Pathomechanism ... 46
Dural Injury ... 47
Classification of Fractures ... 47
Clinical Signs and Symptoms ... 48
Uncertain Signs of Fracture of the Anterior Skull Base ... 48
Eyelid Hematoma, Eyelid Emphysema ... 48
Epistaxis ... 49
Seiferth Sign ... 49
Olfactory Disturbances ... 49
Certain Signs of Fracture of the Anterior Skull Base ... 50
Cerebrospinal Fluid Rhinorrhea ... 50
Evaluation of Suspected Cerebrospinal Fluid Rhinorrhea ... 50
Pneumocephalus ... 51
Early Meningitis ... 51
Diagnostic Imaging of Fractures of the Anterior Skull Base ... 51
Surgical Indications in Injuries of the Anterior Skull Base ... 52

7 Diagnosing Injuries of the Ear and Lateral Skull Base ... 53

Surgical Anatomy ... 53
Pathomechanism and Classification ... 54
Injuries of the External Ear ... 54
Injuries of the Middle Ear ... 55
Injuries of the Tympanic Membrane ... 55
Ossicular Injuries ... 56
Rupture of the Round Window Membrane ... 57
Injuries of the Petrous Temporal Bone and Labyrinth ... 57
Concussion of the Petrous Temporal Bone and Bony Labyrinth ... 57
Fractures of the Petrous Temporal Bone and Bony Labyrinth ... 57
Fracture Line in Longitudinal Fractures ... 57
Fracture Line in Transverse Fractures ... 58
Clinical Signs and Symptoms ... 59
Aural Hemorrhage ... 59
Cerebrospinal Fluid Otorrhea ... 59
Hearing Dysfunction ... 60
Sensorineural Hearing Loss ... 60
Conductive Hearing Loss ... 60
Vestibular Disorder ... 60
Functional Testing of the Auditory and Vestibular System ... 61
Audiometry ... 61
Tuning Fork Tests ... 61
Pure Tone Audiometry ... 61

Vestibular Tests 61
Frenzel Lenses 61
Vestibulospinal Reflexes 62
Romberg Test 62
Unterberger Stepping Test 62
Caloric Testing 62

Diagnostic Imaging 62

8 Diagnosing Injuries of the Facial Nerve 64

Surgical Anatomy 64
Intracranial Segment 64
Intratemporal Segment 64

Pathomechanism and Classification 66
Classification 66
House–Brackmann Scale 66

Clinical Signs and Functional Tests 67
Topodiagnostic Evaluation 67
Tearing (Schirmer Test) 67
Taste 67
Measurement of Stapedial Reflex 67
Electrophysiologic Testing 67
Electromyography (EMG) 67

Management 68

9 Diagnosing Injuries of the Midface 69

Surgical Anatomy 69

Classification of Midface Fractures 70

Central Fractures of the Midface 71
Fractures of the Alveolar Process 71
Pathomechanism 71
Le Fort I Fractures 71
Pathomechanism 71
Clinical Symptoms 71
Diagnostic Imaging 72
Treatment 73
Le Fort II Fractures, Wassmund I Fractures 73
Pathomechanism 73
Clinical Symptoms 74
Diagnostic Imaging 74
Treatment 74
Le Fort III Fractures, Wassmund IV Fractures 75
Surgical Anatomy 75
Pathomechanism 75
Clinical Symptoms 76
Diagnostic Imaging 76
Treatment 76
Fractures of the Nasoethmoidal Complex 76
Surgical Anatomy 76
Pathomechanism 76
Classification 77
Clinical Symptoms 77
Diagnostic Imaging 79
Treatment 79
Fractures of the Bony Nasal Framework and Septum 79
Surgical Anatomy 79
Pathomechanism 79
Classification 80
Clinical Symptoms 80
Diagnostic Imaging 80
Treatment 81

Fractures of the Lateral Midface 82
Zygomatic Fracture 82
Surgical Anatomy 82
Pathomechanism 82
Classification 82
Clinical Signs 83
Zygomatic Arch Fracture 83
Pathomechanism 83
Clinical Signs 83
Diagnostic Imaging 85
Treatment 85

10 Diagnosing Injuries of the Orbit 86

Surgical Anatomy 86

Orbital Wall Fractures 88
Fractures of the Orbital Floor and Medial Orbital Wall 88
Pathomechanism 88
Clinical Signs and Symptoms 88
Traction Test/Forward Traction Test 89
Endoscopy of the Maxillary Sinus 89
Diagnostic Imaging 89
Treatment 90
Fractures of the Orbital Roof and Lateral Orbital Wall 90
Pathomechanism 90
Clinical Signs and Symptoms 90
Diagnostic Imaging 90
Treatment 90

Injuries of the Orbital Apex 90
Pathomechanism and Classification 90
Clinical Signs and Symptoms 91
Injury of the Oculomotor Nerve 91
Injury of the Trochlear Nerve 91
Injury of the Abducens Nerve 91
Injury of the Optic Nerve 91
Injury of the Trigeminal Nerve 93
Diagnostic Imaging 93
Treatment 94

Injuries of the Lacrimal Ducts 94
Pathomechanism 94
Clinical Signs and Symptoms 94
Diagnostic Imaging 94
Treatment 94

Carotid-Cavernous Sinus Fistula 94
Pathomechanism 94
Clinical Signs and Symptoms 94
Diagnostic Imaging 95

11 Diagnosing Injuries of the Mandible 96

Surgical Anatomy 96

Pathomechanism 97

Clinical Signs and Symptoms 97
Certain Signs of Fracture 98
Deformity and Dislocation 98
Abnormal Mobility 98
Crepitus 98
Uncertain Fracture Signs 98
Hematoma and Swelling 98
Tenderness 98
Longitudinal Compression Pain 99
Restricted Function 99
Sensory Disturbances 99
Malocclusion 99

Diagnostic Imaging 99

Classification of Mandibular Fractures 100
Fractures of the Mandibular Body with Dentoalveolar Involvement 100
Pathomechanisms 100
Diagnostic Imaging 101
Treatment 101
Mandibular Fractures without Dentoalveolar Involvement 102
Clinical Signs and Symptoms 104
Diagnostic Imaging 104
Treatment 104
Fractures of the Ramus of Mandible 104
Pathomechanism 104
Clinical Signs 105
Diagnostic Imaging 105
Treatment 105
Injuries of the Condylar Process 105
Contusion of the Temporomandibular Joint 105
Distortion of the Temporomandibular Joint 106
Dislocation of the Temporomandibular Joint 106
Subluxation of the Temporomandibular Joint 106
Fracture of the Temporomandibular Joint 108

12 Diagnosing Dental Injuries 112

Surgical Anatomy 112

Pathomechanism 112

Dental Fractures 112
Classification 112
Clinical Diagnosis 112
Diagnostic Imaging 113
Treatment 113

Dental Luxation 113
Pathomechanism 113
Classification 113
Clinical Diagnosis 114
Diagnostic Imaging 114
Treatment 114
Dental Concussion 114
Pathomechanism 114
Diagnostic Imaging 114
Treatment 114
Dental Luxation without Dislocation (Loosening, Subluxation) 114
Pathomechanism 114
Clinical Signs 114
Diagnostic Imaging 114
Treatment 115
Dental Luxation with Dislocation 115
Partial Peripheral Dislocation 115
Complete Peripheral Dislocation 116
Central Luxation 117

Fractures of the Alveolar Process 118
Pathomechanism 118
Clinical Signs 118
Diagnostic Imaging 119
Treatment 119

13 Diagnosing Injuries of the Pharynx, Salivary Glands, and Soft Tissues of the Neck 120

Injuries of the Pharynx 120

Injuries of the Salivary Glands 120

Soft Tissue Injuries of the Neck 120

Blunt Trauma to the Soft Tissues of the Neck 120

Sharp Trauma of the Soft Tissues of the Neck 120

14 Diagnosing Injuries of the Larynx and Trachea 121

Surgical Anatomy 121

Pathomechanism and Classification 122

Fractures 124
- *Anteroposteriorly Directed Trauma* 124
- *Lateral Trauma* 124
- *Supraglottic Injuries* 124
- *Transglottic Injuries* 124
- *Subglottic Injuries* 125
- *Tracheal Injuries* 125

Ruptures 125
- *Supraglottic Rupture* 125
- *Subglottic Rupture* 125
- *Laryngotracheal Separation* 125
- *Partial Laryngotracheal Separation* 125
- *Complete Laryngotracheal Separation* 125
- *Esophageal Rupture* 125

Clinical Signs and Symptoms 126
- *Respiratory Distress* 126
- *Emphysema* 126
- *Complications* 126

Evaluation Procedures and Functional Testing ... 127

Endoscopy 127
- *Magnifying Laryngoscopy and Flexible Nasopharyngolaryngoscopy* 127
- *Microlaryngoscopy, Tracheobronchoscopy* 127

Radiographic Evaluation 127

Evaluation of Phonation 127
- *Stroboscopy* 127
- *Vocal Output and Characteristics* 127
- *Electrodiagnostic Testing* 127

Treatment 128

III Therapy of Head and Neck Trauma

15 Principles of Wound Management 130

The Ten Commandments of Wound Management 130

Abrasions 130
- *Immediate Management/Treatment* 130

Puncture Wounds 131
- *Immediate Management* 131
- *Treatment* 131

Cut Wounds 131
- *Immediate Management* 131
- *Treatment* 131

Bite Wounds 131
- *Immediate Management* 131
- *Treatment* 131

Missile Wounds 133
- *Immediate Management* 133
- *Treatment* 133

Burn Injury 133
- *Immediate Management* 133
- *Treatment* 134

Chemical/Alkali Burns 134
- *Immediate Management* 134
- *Treatment* 134

Wound Closure 135

Suture Technique 135

Suture Material 135

Wound Dressings 136

16 Treatment of Injuries of the Neurocranium and Craniocervical Junction 137

Treatment Principles for Craniocerebral Trauma . 137

Treatment of Fractures of the Craniocervical Junction 138

Atlantooccipital Fractures/Dislocations 138

Treatment of Soft Tissue Distortion and Discoligamentous Injuries of the Craniocervical Junction .. 139

17 Treatment of Injuries of the Skull Base ... 140

Indications ... 140

Approaches ... 140
- *Ear-to-Ear Scalp Incision, Bicoronal Incision* ... 140
- *Frontoorbital Approach* ... 141
- *Endonasal Approach* ... 141

Surgical Technique ... 142

Principles of Dural Repair ... 142
- *Frontal Sinus* ... 143
- *Extradural Management* ... 143
- *Intradural Management* ... 143
- *Ethmoid Bone* ... 143
- *Sphenoid Sinus* ... 144

Grafts ... 144
- *Autogenous Grafts* ... 144
- *Homologous Grafts* ... 145
- *Alloplastic Implants* ... 145

Postoperative Management ... 145
- *Frontal Sinus* ... 145
- *Ethmoid/Sphenoid Sinus* ... 145
- *Drainage of Cerebrospinal Fluid* ... 145
- *Follow-up Care* ... 145

Complications ... 146

18 Treatment of Injuries of the Ear and Lateral Skull Base ... 147

Injuries of the External Ear ... 147

Indications ... 147
Surgical Methods ... 147
- *Seroma and Hematomas of the Ear* ... 147
- *Injuries of the Auricle* ... 148
- *Auricular Amputation* ... 148

Injuries of the Vestibulocochlear System ... 149

Indications ... 149
Conservative Management ... 149
- *Inner Ear Auditory Dysfunction* ... 149
- *Vestibular Disorder* ... 150

Surgical Management ... 150
- *Approaches* ... 150
- *Surgical Techniques* ... 151

Injuries of the Facial Nerve ... 153
- *Indications* ... 153
- *Conservative Treatment* ... 154
- *Surgical Management* ... 154
- *Follow-up Care* ... 156

19 Treatment of Injuries of the Midface ... 157

Conservative Management ... 157

Splinting ... 157
- *Intraoral Splinting* ... 157
- *Extraoral Splinting* ... 158

Controlled Spontaneous Healing ... 159
Monomaxillary Fixation ... 159
Intermaxillary Fixation ... 159
Intermaxillary Fixation and Stabilization with a Halo Frame ... 159

Surgical Procedures ... 160

Craniofacial Suspension Wiring ... 160
Osteosynthesis with Miniplates and Microplates ... 160
- *Osteosynthesis Techniques* ... 161
- *Osteosynthesis Materials* ... 162
- *Osteosynthesis Systems* ... 167
- *Principles of Reconstruction* ... 167

Infrazygomatic Fractures (Le Fort I) ... 170
- *Indications* ... 170
- *Conservative Management* ... 170
- *Surgical Treatment* ... 170
- *Complications* ... 171

Central or Pyramidal Fractures (Le Fort II, Wassmund I) ... 172
- *Indications* ... 172
- *Conservative Management* ... 172
- *Surgical Technique* ... 172
- *Complications* ... 172

Centrolateral Fractures (Le Fort III, Wassmund IV) ... 173
- *Indications* ... 173
- *Conservative Management* ... 173
- *Surgical Technique* ... 173
- *Complications* ... 174

Fractures of the Nasoethmoidal Complex ... 174
- *Indications* ... 174
- *Surgical Treatment* ... 174

Fractures of the Bony Nasal Skeleton and Septum ... 176
- *Indications* ... 176
- *Approaches* ... 176
- *Surgical Technique* ... 176

Fractures of the Lateral Midface 177
Indications 177
Approaches 177
Surgical Technique 178

20 Treatment of Orbital Injuries 179

Fractures of the Orbital Floor 179
Indications 179
Approaches 179
Surgical Technique 179
Complications 179

Medial Orbits 182
Indications 182
Approaches 182
Surgical Technique 182
Complications 182

Orbital Roof 182
Indications 182
Approaches 182
Surgical Technique 182
Complications 183

Orbital Decompression 183
Indications 183
Approaches 183
Surgical Technique 183
Complications 183

Optic Nerve Decompression 184
Indications 184
Approaches 184
Surgical Technique 184
Complications 184

Injuries of the Lacrimal Ducts 184
Indications 184
Surgical Technique 184
Complications 184

Injuries of the Eyelids 185
Indications 185
Surgical Technique 185
Complications 185

21 Treatment of Injuries of the Mandible 186

Fractures of the Mandibular Body with Dentoalveolar Involvement 186
Indications 186
Conservative Management 186
Surgical Management 186
Approaches 186
Surgical Technique 186
Complications 189

Fractures of the Mandible without Dentoalveolar Involvement or in the Partially Edentulous Jaw 190

Fractures of the Mandibular Ramus 190
Conservative Treatment 190
Surgical Treatment 190
Approaches 190
Surgical Technique 190
Complications 190

Fractures in the Edentulous, Atrophied Mandible 190

Mandibular Defect Fractures 191

Contaminated Mandibular Fractures 191

Fractures of the Mandible in Patients with Primary or Deciduous Teeth 192

Nondisplaced Fractures of the Condylar Neck and Head 193
Indications 193
Conservative Treatment 193
Surgical Treatment 193
Approaches—Intraoral Approach 194
Approaches—Extraoral Retromandibular (Submandibular) Approach 194
Functional Treatment 196

Displaced Fractures and Fracture-Dislocations of the Condylar Neck 196
Indications 196
Conservative Management 196
Complications 196
Surgical Management 197
Approaches 197
Surgical Technique 197
Complications 197

Fractures of the Condylar Head 197
Conservative Management 197
Surgical Treatment 197
Approaches 197
Surgical Technique 197

Fractures of the Articular Fossa (Central Dislocation) 198

Pediatric Fractures of the Condylar Neck and Condylar Head 198

22 Treatment of Dental Injuries 199

Treatment of Dental Injuries 199
Indications 199
Conservative Treatment of Crown Fractures 199
Enamel Fractures 199
Enamel-Dentin Fractures without Pulp Exposure 199
Enamel-Dentin Fractures with Pulp Exposure 199
Surgical Management of Root Fractures 199
Coronal Third Root Fractures 199
Middle Third Root Fractures 200
Apical Third Root Fractures 200
Longitudinal Fractures 200
Approaches (Resection of the Root Tip) 200
Surgical Technique 200
Complications 201

Treatment of Dental Luxation 201
Indications 201
Primary Teeth 201
Surgical Treatment 201
Dental Concussion 201
Dental Luxation without Displacement (Tooth Loosening) 202
Partial Peripheral Luxation 202
Complete Peripheral Luxation 202
Central Luxation 203
Complications 203

Treatment of Fractures of the Alveolar Process 203
Indications 203
Conservative Treatment 203
Surgical Management 203
Approaches 203
Surgical Technique 204
Complications 204

23 Treatment of Injuries of the Larynx, Pharynx, Trachea, Esophagus, and Soft Tissues of the Neck 205

Indications 205
Conservative Treatment 206
Chemical/Alkali Injuries 206
Surgical Therapy 206
Approaches 206
Surgical Procedure 206
Complications 208

IV Appendix

24 Antibiotic Therapy 210

25 Grafting and Osteosynthesis Materials 211

Requirements and Classification 211

Autogenic Grafts 211
Outer Table of the Skull 211

Allogenous (Homologous) Grafts 212
Preserved Allografts 212

Alloplastic Implants 212
Absorbable Alloplastic Implants 212
Polydioxanone (PDS) 212
Ethisorb 212
Vicryl 212
Monocryl 212

Nonabsorbable Alloplastic Implants 212
Metal 212

Further Reading 214
