Contents

1 Introduction
K. Kian Ang, Hisham M. Mehanna
Clinical Assessment and Imaging Evaluation of Recurrence 1
Principles of the Assessment of Potential Recurrence ... 1
History and Examination 1
Previous Treatment Records 2
Imaging 2
Examination under Anesthetic 4
Needle or Open Biopsy 4

2 Molecular Biology of Recurrence
Kevin J. Harrington
Introduction 7
The Biology of Treatment Resistance 7
Activation of Alternative Signaling Pathways 12
Biological Processes Involved in Metastasis 12
Conclusions 14

3 Imaging Modalities for Head and Neck Cancer Recurrence
Oludolapo O. Adesanya
Therapy-related Changes in the Head and Neck Region 17
Imaging Modalities for Detection of Recurrence 38
Imaging for Recurrence at Specific Sites 47

4 Concurrent Chemotherapy and Re-irradiation for Recurrent Head and Neck Cancer
Kevin S. Choe, Joseph Kamel Salama, Ezra E.W. Cohen
Introduction 67
Reasons for Tumor Recurrence Following Definitive Therapy 67
Regimens for Concurrent Chemotherapy with Re-irradiation 68
Evidence for Concurrent Chemotherapy with Re-irradiation 68
Brachytherapy for Recurrent Head and Neck Cancer .. 70
Patient Selection and Prognostic Factors 70
Simulation and Planning for Re-irradiation 72
Treatment Volume Definition 72
Beam Arrangement 73
Advances in Delivery of Radiation 73
New Approaches to CRRT 74
Conclusion 75

5 Systemic Therapy in the Treatment of Recurrent and Metastatic Head and Neck Carcinoma
Lisa Licitra, Jan B. Vermorken, Pol Specenier, Augusto Caraceni
Patient's Clinical Profile and Assessment 81
Clinical Decision Making 82
Medical Treatment 83
Special Issues in End-of-Life Supportive Care 89

6 Principles and Concepts of Reconstruction in the Recurrent Setting
Ralph Gilbert
Introduction 95
Issues in Surgical Approach—Impact of Previous Treatment 95
Management of the Vessel-depleted Neck 96
Site-specific Defect Considerations 96
Conclusion 99

7 Patient Selection for Treatment
Vinidh Paleri, Charles G. Kelly
Introduction 101
Assessment of the Recurrent Cancer 101
Factors Involved in Treatment Selection 102
Involving the Patient in the Decision-making Process 105
Treatment Options 107

8 Recurrent Laryngeal Cancer
Marc A. Cohen, Ramez Nassif, David P. Goldstein, Ralph Gilbert, Patrick Gullane
Introduction 113
Epidemiology 113
Diagnosis of Recurrent Laryngeal Cancer 114
Staging of Recurrent Laryngeal Cancer 114
Principles of Management 115
Surgical Management of Recurrent Disease 116

9 Management of Recurrent Hypopharyngeal Cancer
Jarrod Homer, Nick Slevin, Priyamal Silva
Incidence and Patterns of Recurrence in Hypopharyngeal Cancer 127
Detection of Recurrent Disease 127
Principles of Management 128
Surgical Techniques of Salvage Pharyngolaryngectomy 129
Re-irradiation for Recurrent Hypopharyngeal Cancer 131

10 Carcinoma of the Oral Cavity
Alexander D. Rapidis, Hisham M. Mehanna, K. Kian Ang
Introduction 133
Posttreatment Surveillance 133
Diagnosis of Recurrence 134
Principles of Management 134
Surgical Approaches and Techniques 135
Outcomes 139

11 Carcinoma of the Oropharynx
Mark E. Zafereo, Beth M. Beadle, Randal S. Weber
Epidemiology 145
Prognostic Factors 145
Investigations 146
Principles of Management 147
Outcomes 153

12 Management of Nodal Recurrence
Hisham M. Mehanna, Miroslav Tedla, K. Kian Ang, Christopher M. Nutting
Introduction 163
Incidence and Distribution of Nodal Recurrence 163
Evaluation of Nodal Recurrence 163
Management 165
Special Considerations 167
Outcomes 170
Complication Rates 171

13 Carcinoma of the Nasopharynx
William I. Wei, Lai Wan Dora Kwong
Epidemiology 175
Clinical Features 176
Investigations 176
Principles of Management 176
Surgical Techniques 178
Radiation Techniques 181
Chemotherapy 187
Targeted Therapy 187
Immunotherapy 187

14 Skull Base and Sinonasal Cancer
Claudio R. Cernea, Lenine Garcia Brandão, Eduardo Weltman
Introduction 191
Prevalence and Prognostic Factors 191
Clinical Assessment and Work-up 191
Principles of Management 192
Therapy Techniques 193
Chemotherapy 195
Outcomes 195

15 Recurrent Differentiated Thyroid Cancer
N. Gopalakrishna Iyer, Ashok R. Shaha, R. Michael Tuttle
Introduction 199
Differentiated Thyroid Cancer 199
Principles of Management 203
Conclusion 207

16 Recurrent Salivary Gland Carcinoma and Pleomorphic Adenoma
Alfonsus J.M. Balm, Jan Paul de Boer, Coen R.N. Rasch
Salivary Gland Carcinoma 211
Recurrent Pleomorphic Adenoma 221

17 Recurrent Melanotic and Nonmelanotic Skin Cancer
Michael Veness, Gary Morgan, Julie Howle
Epidemiology 229
Prognostic Factors 229
Patterns of Recurrence 230
Primary Lesion Treatment 230
Regional Treatment 232
Recurrence 233
Principles of Management 235

18 Prognosis of Recurrent Head and Neck Cancer
R.J. Baatenburg de Jong, M.P. van der Schroeff
Introduction 245
Prognostic Factors 245
Individualized Prognosis in Recurrent HNSCC 249
Routine Follow-up and Recurrent Disease 250
Conclusion 251

19 Rehabilitation after Treatment for Recurrent Head and Neck Cancer
Alison Perry, Julia Maclean
Introduction 253
A Supportive Care Team 253
Rehabilitation Needs of Patients with Recurrent Cancer 253
Symptoms and Their Management 255
Supportive Care Services; “Surviving Survivorship” 259
Exemplary Case Studies 259

20 Psychosocial Aspects of Recurrent Head and Neck Cancer
Marinella P.J. Offerman, Maarten F. de Boer, R.J. Baatenburg de Jong, Jean F.A. Pruyn
Introduction 265
Studies on Psychosocial Response after Head and Neck Cancer Recurrence 265
Studies on Fear of Recurrence 267
Current Research 267
The Doctor’s Message: “The Cancer is Back” 268
After the News of Recurrence ... How to Go On? 270
Patients’ Suggestions for the Professional 271
Summary 272
Concluding Thoughts 272

21 Palliative and Psychosocial Issues in Advanced Head and Neck Cancer
Dan Munday, Cherith J. Semple
Introduction 277
Pain Control in Advanced Head and Neck Cancer 277
Oral Problems in Head and Neck Cancer 279
Swallowing and Nutrition 281
Management of Complex Wounds 283
Psychosocial Issues 286
Management of the Last Days of Life 288
Conclusion 290
