Foreword to the First Edition xxxi

Preface xxxiii

Contributors xxxiv

PART I: Aneurysms and Subarachnoid Hemorrhage

CASE 1 Embolization of a Ruptured Basilar Tip Aneurysm 3

Timo Krings

1.1 Case Description 3

1.1.1 Clinical Presentation 3
1.1.2 Radiologic Studies 3
1.1.3 Diagnosis 3
1.1.4 Treatment 3

1.2 Discussion 4

1.2.1 Background 4
1.2.2 Noninvasive Imaging Workup 4
1.2.3 Invasive Imaging Workup 5
1.2.4 Differential Diagnosis 5
1.2.5 Treatment Options 5
1.2.6 Possible Complications 6
1.2.7 Published Literature on Treatment Options 6

CASE 2 Embolization of a Ruptured Anterior Communicating Artery Aneurysm 8

Timo Krings

2.1 Case Description 8

2.1.1 Clinical Presentation 8
2.1.2 Radiologic Studies 8
2.1.3 Diagnosis 8
2.1.4 Treatment 8

2.2 Discussion 8

2.2.1 Background 8
2.2.2 Noninvasive and Invasive Imaging Workup 9
2.2.3 Treatment Options 9
2.2.4 Possible Complications 10

CASE 3 Multiple Aneurysms in a Patient with Subarachnoid Hemorrhage 11

Timo Krings and Pierre L. Lasjaunias†

3.1 Case Description 11

3.1.1 Clinical Presentation 11
3.1.2 Radiologic Studies 11
3.1.3 Diagnosis 11
3.1.4 Treatment 11

3.2 Discussion 11

3.2.1 Background 11
3.2.2 Noninvasive Imaging Workup 12
3.2.3 Treatment Options 12
3.2.4 Possible Complications 12
3.2.5 Published Literature on Treatment Options 12

CASE 4 Management of an Unruptured Internal Carotid Artery Aneurysm 15

Timo Krings

4.1 Case Description 15

4.1.1 Clinical Presentation 15
4.1.2 Radiologic Studies 15
4.1.3 Diagnosis 15
4.1.4 Treatment 15

4.2 Discussion 15

4.2.1 Background 15

from: Krings et al, Case-Based Interventional Neuroradiology (9781684200702)
© 2026. Thieme. All rights reserved.

4.2.2 Noninvasive Imaging Workup . . . 17
4.2.3 Invasive Imaging Workup . . . 17
4.2.4 Treatment Options . . . 17
4.2.5 Possible Complications . . . 17
4.2.6 Published Literature on Treatment Options . . . 18

CASE 5 Intrasaccular Flow Disruptor for Ruptured Middle Cerebral Artery Aneurysm . . . 19
Leonardo Renieri

5.1 Case Description . . . 19
5.1.1 Clinical Presentation . . . 19
5.1.2 Radiologic Studies . . . 19
5.1.3 Treatment . . . 19
5.2.1 Background . . . 20
5.2.2 Noninvasive Imaging Workup . . . 20
5.2.3 Treatment Options . . . 21
5.2.4 Possible Complications . . . 21
5.2.5 The WEB . . . 21

5.2 Discussion . . . 20

CASE 6 Balloon-Assisted Embolization of a Ruptured Wide-Necked Anterior Communicating Artery Aneurysm . . . 24
Timo Krings

6.1 Case Description . . . 24
6.1.1 Clinical Presentation . . . 24
6.1.2 Radiologic Studies . . . 24
6.1.3 Diagnosis . . . 24
6.1.4 Treatment . . . 24
6.2.1 Background . . . 24
6.2.2 Noninvasive Imaging Workup . . . 25
6.2.3 Treatment Options . . . 26
6.2.4 Possible Complications . . . 26
6.2.5 Published Literature on Treatment Options . . . 26

6.2 Discussion . . . 24

CASE 7 Stent-Assisted Embolization of a Wide-Necked Recurrent Posterior Communicating Artery Aneurysm . . . 28
Timo Krings

7.1 Case Description . . . 28
7.1.1 Clinical Presentation . . . 28
7.1.2 Radiologic Studies . . . 28
7.1.3 Diagnosis . . . 28
7.1.4 Treatment . . . 28
7.2.1 Background . . . 29
7.2.2 Noninvasive Imaging Workup . . . 29
7.2.3 Invasive Imaging Workup . . . 30
7.2.4 Treatment Options . . . 30
7.2.5 Possible Complications . . . 30
7.2.6 Published Literature on Treatment Options . . . 30

7.2 Discussion . . . 29

CASE 8 X, Y, T, and H Stents: When to Employ and Technical Considerations . . . 32
Nicola Limbucci

8.1 Case Description . . . 32
8.1.1 Clinical Presentation . . . 32
8.1.2 Radiologic Studies . . . 32
8.1.3 Diagnosis . . . 32
8.1.4 Treatment . . . 32
8.2.1 Background . . . 33
8.2.2 Noninvasive Imaging Workup . . . 33
8.2.3 Treatment Options . . . 33
8.2.4 Possible Complications . . . 33
8.2.5 Published Literature on Treatment Options . . . 34

8.2 Discussion . . . 33

from: Krings et al, Case-Based Interventional Neuroradiology (9781684200702)

CASE 9 Braided Stent Shouldering Technique 37
Nimer Adeeb, Sandeep Kandregula, and Hugo H. Cuellar

9.1 Case Description 37
9.1.1 Clinical Presentation 37
9.1.2 Radiologic Studies 37
9.1.3 Diagnosis 37
9.1.4 Treatment 37

9.2 Discussion 37
9.2.1 Effect of Aneurysm and Vessel Characteristics on Complete Occlusion 38
9.2.2 The Era of Intrasaccular Flow Disruption 39

CASE 10 Endoluminal Flow Diversion for a Sidewall Aneurysm 41
Eytan Raz

10.1 Case Description 41
10.1.1 Clinical Presentation 41
10.1.2 Radiologic Studies 41
10.1.3 Diagnosis 41
10.1.4 Treatment 41

10.2 Discussion 43
10.2.1 Background 43
10.2.2 Noninvasive Imaging Workup 43
10.2.3 Invasive Imaging Workup 44
10.2.4 Treatment Options 44
10.2.5 Possible Complications 44
10.2.6 Published Literature on Treatment Options 44

CASE 11 Endoluminal Flow Diversion for a Giant "Blowout" Aneurysm 45
Georgios A. Maragkos and Min S. Park

11.1 Case Description 45
11.1.1 Clinical Presentation 45
11.1.2 Radiologic Studies 45
11.1.3 Diagnosis 45
11.1.4 Treatment 45

11.2 Discussion 46
11.2.1 Background 46
11.2.2 Noninvasive Imaging Workup 47
11.2.3 Invasive Imaging Workup 47
11.2.4 Treatment Options 47
11.2.5 Possible Complications 47
11.2.6 Published Literature on Treatment Options 48

CASE 12 Management of Complications during Aneurysm Coiling: Proximal Mechanically Induced Vasospasm 49
Timo Krings and Richard I. Farb

12.1 Case Description 49
12.1.1 Clinical Presentation 49
12.1.2 Radiologic Studies 49
12.1.3 Diagnosis 49
12.1.4 Treatment 49

12.2 Discussion 51
12.2.1 Background 51
12.2.2 Invasive Imaging Workup 51
12.2.3 Differential Diagnosis 51
12.2.4 Treatment Options 51
12.2.5 Possible Complications 51
12.2.6 Published Literature on Treatment Options 51

CASE 13 Management of Complications during Aneurysm Coiling: Periprocedural Aneurysm Rupture 53
Timo Krings and Karel ter Brugge

13.1 Case Description 53
13.1.1 Clinical Presentation 53
13.1.2 Radiologic Studies 53
13.1.3 Diagnosis 53
13.1.4 Treatment 53

13.2 Discussion 54
13.2.1 Background 54

from: Krings et al, Case-Based Interventional Neuroradiology (9781684200702)
© 2026. Thieme. All rights reserved.

13.2.2 Noninvasive Imaging Workup . . . 55
13.2.3 Invasive Imaging Workup . . . 55
13.2.4 Differential Diagnosis . . . 55
13.2.5 Treatment Options . . . 55
13.2.6 Possible Complications . . . 56
13.2.7 Published Literature on Treatment Options . . . 56

CASE 14 Management of Complications during Aneurysm Coiling: Periprocedural Thrombus Formation . . . 57
Timo Krings

14.1 Case Description . . . 57
14.1.1 Clinical Presentation . . . 57
14.1.2 Radiologic Studies . . . 57
14.1.3 Diagnosis . . . 57
14.1.4 Treatment . . . 57
14.2 Discussion . . . 58
14.2.1 Background . . . 58
14.2.2 Noninvasive Imaging Workup . . . 59
14.2.3 Invasive Imaging Workup . . . 59
14.2.4 Differential Diagnosis . . . 59
14.2.5 Treatment Options . . . 59
14.2.6 Possible Complications . . . 60
14.2.7 Published Literature on Treatment Options . . . 60

CASE 15 Management of Subarachnoid Hemorrhage Induced Vasospasm . . . 62
Timo Krings

15.1 Case Description . . . 62
15.1.1 Clinical Presentation . . . 62
15.1.2 Radiologic Studies . . . 62
15.1.3 Diagnosis . . . 63
15.1.4 Treatment . . . 63
15.2 Discussion . . . 63
15.2.1 Background . . . 63
15.2.2 Noninvasive Imaging Workup . . . 64
15.2.3 Invasive Imaging Workup . . . 64
15.2.4 Differential Diagnosis . . . 64
15.2.5 Treatment Options . . . 64
15.2.6 Possible Complications . . . 65
15.2.7 Published Literature on Treatment Options . . . 65

CASE 16 Management of Giant "Partially Thrombosed" Aneurysms . . . 67
Timo Krings

16.1 Case Description . . . 67
16.1.1 Clinical Presentation . . . 67
16.1.2 Radiologic Studies . . . 67
16.1.3 Diagnosis . . . 67
16.1.4 Treatment . . . 67
16.2 Discussion . . . 68
16.2.1 Background . . . 68
16.2.2 Noninvasive Imaging Workup . . . 69
16.2.3 Invasive Imaging Workup . . . 69
16.2.4 Differential Diagnosis . . . 69
16.2.5 Treatment Options . . . 69
16.2.6 Possible Complications . . . 70
16.2.7 Published Literature on Treatment Options . . . 70

CASE 17 Embolization of a Dissecting Vertebral Artery Aneurysm . . . 72
Timo Krings

17.1 Case Description . . . 72
17.1.1 Clinical Presentation . . . 72
17.1.2 Radiologic Studies . . . 72
17.1.3 Diagnosis . . . 72
17.1.4 Treatment . . . 72
17.2 Discussion . . . 73
17.2.1 Background . . . 73
17.2.2 Noninvasive Imaging Workup . . . 73
17.2.3 Invasive Imaging Workup . . . 74
17.2.4 Treatment Options . . . 74
17.2.5 Possible Complications . . . 74
17.2.6 Published Literature on Treatment Options . . . 74

from: Krings et al, Case-Based Interventional Neuroradiology (9781684200702)
© 2026. Thieme. All rights reserved.

CASE 18 Flow Diversion for Ruptured Dissecting Pseudoaneurysms 76
Al-Wala Awad, Phillip Taussky, and Ramesh Grandhi

18.1 Case Description 76
18.1.1 Clinical Presentation 76
18.1.2 Radiologic Studies 76
18.1.3 Diagnosis 76
18.1.4 Initial Management 76
18.1.5 Treatment 76

18.2 Discussion 77
18.2.1 Background 77
18.2.2 Noninvasive Imaging Workup 78
18.2.3 Treatment Options 78
18.2.4 Possible Complications 78
18.2.5 Published Literature on Endovascular Treatment 78

CASE 19 Endoluminal Flow Diversion for a Ruptured Blister Aneurysm 81
Robert W. Regenhardt, Adam A. Dmytriw, and Aman B. Patel

19.1 Case Description 81
19.1.1 Clinical Presentation 81
19.1.2 Radiologic Studies 81
19.1.3 Diagnosis 81
19.1.4 Treatment 81

19.2 Discussion 82
19.2.1 Background 82
19.2.2 Noninvasive Imaging Workup 83
19.2.3 Invasive Imaging Workup 83
19.2.4 Treatment Options 83
19.2.5 Outcomes 84
19.2.6 Possible Complications 84
19.2.7 Published Literature on Treatment Options 84

CASE 20 Embolizations of a Dissecting Distal Anterior Inferior Cerebellar Artery Aneurysm 85
Timo Krings and Pierre L. Lasjaunias†

20.1 Case Description 85
20.1.1 Clinical Presentation 85
20.1.2 Radiologic Studies 85
20.1.3 Diagnosis 85
20.1.4 Treatment 85

20.2 Discussion 86
20.2.1 Background 86
20.2.2 Noninvasive Imaging Workup 86
20.2.3 Invasive Imaging Workup 86
20.2.4 Differential Diagnosis 87
20.2.5 Treatment Options 87
20.2.6 Possible Complications 87
20.2.7 Published Literature on Treatment Options 87

CASE 21 Embolization of an Infectious Distal Middle Cerebral Artery Aneurysm 89
Timo Krings and Karel ter Brugge

21.1 Case Description 89
21.1.1 Clinical Presentation 89
21.1.2 Radiologic Studies 89
21.1.3 Diagnosis 89
21.1.4 Treatment 89

21.2 Discussion 89
21.2.1 Background 89
21.2.2 Noninvasive Imaging Workup 90
21.2.3 Invasive Imaging Workup 90
21.2.4 Treatment Options 90
21.2.5 Possible Complications 91
21.2.6 Published Literature on Treatment Options 91

CASE 22 Intraprocedural Aneurysm Rupture: Approaches and Considerations 92
Jose Danilo B. Diestro, Dipanka Sarma, and Julian Spears

22.1 Case Description 92
22.1.1 Clinical Presentation and Initial Radiologic Studies 92

from: Krings et al, Case-Based Interventional Neuroradiology (9781684200702)
© 2026. Thieme. All rights reserved.

22.2 Procedure . . . 92
22.2.1 Diagnosis . . . 92
22.2.2 Treatment . . . 92
22.2.3 Equipment . . . 92
22.2.4 Technique . . . 92
22.2.5 Outcome . . . 93
22.3 Discussion . . . 93
22.3.1 Background . . . 93
22.3.2 Technical Pearls . . . 93

CASE 23 Intraprocedural Flow-Diverting Stent Prolapse: Approaches and Considerations . . . 95
Jose Danilo B. Diestro, Carmen Parra-Farinas, and Thomas R. Marotta

23.1 Case Description . . . 95
23.1.1 Clinical Presentation . . . 95
23.1.2 Procedure . . . 95
23.2 Discussion . . . 95
23.2.1 Background . . . 95
23.2.2 Technical Pearls . . . 95

CASE 24 Intraprocedural Coil Migration and Snare Retrieval . . . 99
Davor Pavlin-Premrl and Julian Maingard

24.1 Case Description . . . 99
24.1.1 Clinical Presentation . . . 99
24.1.2 Radiologic Studies . . . 99
24.1.3 Diagnosis . . . 99
24.1.4 Treatment . . . 99
24.2 Discussion . . . 100
24.2.1 Background . . . 100
24.2.2 Literature . . . 100
24.2.3 Options . . . 100

CASE 25 Transradial Access for Endoluminal Flow Diversion . . . 102
Ajit S. Puri, Anna Luisa Kühn, and Jasmeet Singh

25.1 Case Description . . . 102
25.1.1 Clinical Presentation . . . 102
25.1.2 Radiologic Studies . . . 102
25.1.3 Diagnosis . . . 102
25.1.4 Treatment . . . 102
25.2 Discussion . . . 103
25.2.1 Background . . . 103
25.2.2 Noninvasive Imaging Workup . . . 103
25.2.3 Treatment Options . . . 105
25.2.4 Possible Complications . . . 105
25.2.5 Published Literature on Treatment Options . . . 106

PART II: Brain Arteriovenous Malformations

CASE 26 Arterial Embolization of an Unruptured Pial Arteriovenous Malformation . . . 109
Timo Krings

26.1 Case Description . . . 109
26.1.1 Clinical Presentation . . . 109
26.1.2 Radiologic Studies . . . 109
26.1.3 Diagnosis . . . 109
26.1.4 Treatment . . . 109
26.2 Discussion . . . 110
26.2.1 Background . . . 110
26.2.2 Noninvasive Imaging Workup . . . 110
26.2.3 Invasive Imaging Workup . . . 111
26.2.4 Differential Diagnoses . . . 111
26.2.5 Treatment Options . . . 111
26.2.6 Possible Complications . . . 111

from: Krings et al, Case-Based Interventional Neuroradiology (9781684200702)
© 2026. Thieme. All rights reserved.

CASE 27 Onyx Embolization of a Ruptured Arteriovenous Malformation 114
Nimer Adeeb, Basel Musmar, and Hugo H. Cuellar

27.1 Case Description 114
27.1.1 Clinical Presentation 114
27.1.2 Radiologic Studies 114
27.1.3 Diagnosis 114
27.1.4 Treatment 114

27.2 Discussion 115
27.2.1 Background 115

CASE 28 Arterial Embolization of a Symptomatic Brain Arteriovenous Malformation Using Onyx and "Pressure Cooker" Technique 119
Timo Krings and Vitor Mendes Pereira

28.1 Case Description 119
28.1.1 Clinical Presentation 119
28.1.2 Radiologic Studies 119
28.1.3 Diagnosis 119
28.1.4 Treatment 119

28.2 Discussion 120
28.2.1 Background 120
28.2.2 Invasive Imaging 121
28.2.3 Treatment Options 122
28.2.4 Possible Complications 122
28.2.5 Published Literature on Treatment Options 122

CASE 29 Transvenous Approach for an Unruptured Arteriovenous Malformation 123
Muhammad Waqas, Jaims Lim, Ammad A. Baig, and Adnan H. Siddiqui

29.1 Case Description 123
29.1.1 Clinical Presentation 123
29.1.2 Radiologic Studies 123
29.1.3 Diagnosis 124
29.1.4 Treatment 124

29.2 Discussion 125
29.2.1 Published Literature on Treatment Options 125
29.2.2 Possible Complications 126

CASE 30 Staged Embolization and Hybrid Approaches for Arteriovenous Malformations 127
Krishnan Ravindran, Julian Maingard, and Hamed Asadi

30.1 Case Description 127
30.1.1 Clinical Presentation 127
30.1.2 Radiologic Studies 127
30.1.3 Diagnosis 127
30.1.4 Treatment 127

30.2 Discussion 128
30.2.1 Background 128
30.2.2 Noninvasive Imaging Workup 128
30.2.3 Invasive Imaging Workup 129
30.2.4 Treatment Options 129

CASE 31 Partial Targeted Embolization of an Unruptured Pial Arteriovenous Malformation 131
Timo Krings

31.1 Case Description 131
31.1.1 Clinical Presentation 131
31.1.2 Radiologic Studies 131
31.1.3 Diagnosis 132
31.1.4 Treatment 132

31.2 Discussion 132
31.2.1 Background 132
31.2.2 Noninvasive Imaging Workup 132
31.2.3 Invasive Imaging Workup 133
31.2.4 Treatment Options 133
31.2.5 Possible Complications 133
31.2.6 Published Literature on Treatment Options 134

from: Krings et al, Case-Based Interventional Neuroradiology (9781684200702)
© 2026. Thieme. All rights reserved.

CASE 32 Preradiosurgical Embolization of an Unruptured Pial Arteriovenous Malformation 135
Timo Krings

32.1 Case Description 135
32.1.1 Clinical Presentation 135
32.1.2 Radiologic Studies 135
32.1.3 Diagnosis 135
32.1.4 Treatment 135
32.2 Discussion 135
32.2.1 Background 135
32.2.2 Noninvasive Imaging Workup 137
32.2.3 Invasive Imaging Workup 137
32.2.4 Treatment Options 137
32.2.5 Possible Complications 138
32.2.6 Published Literature on Treatment Options 138

CASE 33 Embolization of an Acutely Ruptured Arteriovenous Malformation with Intranidal Aneurysm 140
Timo Krings

33.1 Case Description 140
33.1.1 Clinical Presentation 140
33.1.2 Radiologic Studies 140
33.1.3 Diagnosis 140
33.1.4 Treatment 140
33.2 Discussion 140
33.2.1 Background 140
33.2.2 Noninvasive Imaging Workup 142
33.2.3 Invasive Imaging Workup 142
33.2.4 Differential Diagnosis 142
33.2.5 Treatment Options 142
33.2.6 Possible Complications 143
33.2.7 Published Literature on Treatment Options 143

CASE 34 Management of Hydrocephalus in an Unruptured Pial Arteriovenous Malformation 144
Timo Krings, Sasikhan Geibprasert, and Sirintara (Pongpech) Singhara Na Ayudhaya

34.1 Case Description 144
34.1.1 Clinical Presentation 144
34.1.2 Radiologic Studies 144
34.1.3 Diagnosis 144
34.1.4 Treatment 144
34.2 Discussion 145
34.2.1 Background 145
34.2.2 Noninvasive Imaging Workup 145
34.2.3 Invasive Imaging Workup 146
34.2.4 Differential Diagnosis 146
34.2.5 Treatment Options 146
34.2.6 Possible Complications 146
34.2.7 Published Literature on Treatment Options 146

CASE 35 Embolization of a Pial Fistulous Arteriovenous Malformation 147
Timo Krings

35.1 Case Description 147
35.1.1 Clinical Presentation 147
35.1.2 Radiologic Studies 147
35.1.3 Treatment 147
35.2 Discussion 147
35.2.1 Background 147
35.2.2 Noninvasive Imaging Workup 148
35.2.3 Treatment Options 149
35.2.4 Possible Complications 149
35.2.5 Published Literature on Treatment Options 149

CASE 36 Partial Embolization of a Choroidal Fistulous Arteriovenous Malformation 150
Timo Krings

36.1 Case Description 150
36.1.1 Clinical Presentation 150

from: Krings et al, Case-Based Interventional Neuroradiology (9781684200702)
© 2026. Thieme. All rights reserved.

36.1.2 Radiologic Studies . . . 150
36.1.3 Diagnosis . . . 150
36.1.4 Treatment . . . 150
36.2 Discussion . . . 151
36.2.1 Background . . . 151
36.2.2 Noninvasive Imaging Workup . . . 151
36.2.3 Invasive Imaging Workup . . . 151
36.2.4 Treatment Options . . . 152
36.2.5 Possible Complications . . . 152
36.2.6 Published Literature on Treatment Options . . . 153

CASE 37 Embolization of a Microshunt into a Developmental Venous Anomaly . . . 154
Timo Krings

37.1 Case Description . . . 154
37.1.1 Clinical Presentation . . . 154
37.1.2 Radiologic Studies . . . 154
37.1.3 Diagnosis . . . 154
37.1.4 Treatment . . . 154
37.2 Discussion . . . 154
37.2.1 Background . . . 154
37.2.2 Noninvasive Imaging Workup . . . 156
37.2.3 Invasive Imaging Workup . . . 156
37.2.4 Differential Diagnosis . . . 156
37.2.5 Treatment Options . . . 156
37.2.6 Published Literature on Treatment Options . . . 157

PART III: Cranial Dural Arteriovenous Shunts

CASE 38 Arterial Embolization of a Lateral Epidural Type of Dural Arteriovenous Fistula . . . 161
Timo Krings, Sasikhan Geibprasert, and Sirintara (Pongpech) Singhara Na Ayudhaya

38.1 Case Description . . . 161
38.1.1 Clinical Presentation . . . 161
38.1.2 Radiologic Studies . . . 161
38.1.3 Diagnosis . . . 161
38.1.4 Treatment . . . 162
38.2 Discussion . . . 162
38.2.1 Background . . . 162
38.2.2 Noninvasive Imaging Workup . . . 162
38.2.3 Invasive Imaging Workup . . . 163
38.2.4 Differential Diagnosis . . . 163
38.2.5 Treatment Options . . . 163
38.2.6 Possible Complications . . . 163
38.2.7 Published Literature on Treatment Options . . . 163

CASE 39 Arterial Embolization of an Ethmoidal Dural Arteriovenous Fistula . . . 164
Timo Krings and Karel ter Brugge

39.1 Case Description . . . 164
39.1.1 Clinical Presentation . . . 164
39.1.2 Radiologic Studies . . . 164
39.1.3 Diagnosis . . . 164
39.1.4 Treatment . . . 164
39.2 Discussion . . . 165
39.2.1 Background . . . 165
39.2.2 Noninvasive Imaging Workup . . . 165
39.2.3 Invasive Imaging Workup . . . 166
39.2.4 Differential Diagnosis . . . 166
39.2.5 Treatment Options . . . 166
39.2.6 Possible Complications . . . 166
39.2.7 Published Literature on Treatment Options . . . 166

CASE 40 Transarterial Glue Embolization of a Transverse Sinus Dural Arteriovenous Fistula . . . 167
Timo Krings

40.1 Case Description . . . 167
40.1.1 Clinical Presentation . . . 167
40.1.2 Radiologic Studies . . . 167
40.1.3 Diagnosis . . . 167
40.1.4 Treatment . . . 167
40.2 Discussion . . . 169
40.2.1 Background . . . 169

40.2.2 Noninvasive Imaging Workup 169
40.2.3 Invasive Imaging Workup 169
40.2.4 Treatment Options 169
40.2.5 Possible Complications 170
40.2.6 Published Literature on Treatment Options 170

CASE 41 Transarterial Onyx Embolization of a Parasagittal Sinus Dural Arteriovenous Fistula 171
Santiago Gomez-Paz, Yosuke Akamatsu, and Ajith J. Thomas

41.1 Case Description 171
41.1.1 Clinical Presentation 171
41.1.2 Radiologic Studies 171
41.1.3 Digital Subtraction Angiography 171
41.1.4 Diagnosis 171
41.1.5 Treatment 171
41.2 Discussion 172
41.2.1 Background and Treatment Options 172
41.2.2 Endovascular Treatment 172
41.2.3 Transarterial Embolization 172

CASE 42 Reversal of Dementia Symptoms with Dural Arteriovenous Fistula Treatment 175
Julian Maingard, Michelle Foo, and Hamed Asadi

42.1 Case Description 175
42.1.1 Clinical Presentation 175
42.1.2 Radiologic Studies 175
42.1.3 Nonradiologic Studies 175
42.1.4 Diagnosis 175
42.1.5 Treatment 176
42.2 Discussion 177
42.2.1 Background 177
42.2.2 Reversible Dementia 177
42.2.3 Imaging Workup 177
42.2.4 Treatment Options 178

CASE 43 Pressure Cooker Technique for Falcotentorial Dural Arteriovenous Fistula 180
Leonardo Renieri

43.1 Case Description 180
43.1.1 Clinical Presentation 180
43.1.2 Radiologic Studies 180
43.1.3 Treatment 180
43.2 Discussion 182
43.2.1 Background 182
43.2.2 Treatment Options 183
43.2.3 Possible Complications 183

CASE 44 Balloon Venous Sinus Protection during Dural Arteriovenous Fistula Treatment 184
Kartik Dev Bhatia

44.1 Case Description 184
44.1.1 Clinical Presentation 184
44.1.2 Radiologic Studies 184
44.1.3 Diagnosis 185
44.1.4 Treatment 185
44.2 Discussion 185
44.2.1 Decision to Treat 187
44.2.2 Treatment Options 187
44.2.3 Potential Complications 188
44.2.4 Treatment Outcomes 188

CASE 45 Transvenous Retrograde Pressure Cooker Embolization of a Dural Arteriovenous Fistula 190
Timo Krings

45.1 Case Description 190
45.1.1 Clinical Presentation 190

from: Krings et al, Case-Based Interventional Neuroradiology (9781684200702)

45.1.2 Radiologic Studies . . . 190
45.1.3 Diagnosis . . . 190
45.1.4 Treatment . . . 190
45.2 Discussion . . . 192
45.2.1 Flow Reversal Techniques . . . 192
45.2.2 Contraindications to the Transarterial Approach in this Case . . . 193
45.2.3 Microsurgical Disconnection . . . 193
45.2.4 Complications of Transvenous Embolization . . . 193
45.2.5 Treatment Outcomes . . . 193

CASE 46 Combined Endovascular Coil and Onyx Treatment of Caroticocavernous Fistula . . . 195
Albert Ho Yuen Chiu and Manraj K.S. Heran

46.1 Case Description . . . 195
46.1.1 Clinical Presentation . . . 195
46.1.2 Radiologic Studies . . . 195
46.1.3 Diagnosis . . . 195
46.1.4 Treatment . . . 195
46.2 Discussion . . . 198
46.2.1 Background . . . 198
46.2.2 Noninvasive Imaging Workup . . . 199
46.2.3 Invasive Imaging Workup . . . 199
46.2.4 Treatment Options . . . 199
46.2.5 Possible Complications . . . 201

CASE 47 Direct Transorbital Puncture of Cavernous Sinus for Treatment of Carotid-Cavernous Fistula . . . 203
Marco A. Marangoni, David Volders, and Manraj K.S.Heran

47.1 Case Description . . . 203
47.1.1 Clinical Presentation . . . 203
47.1.2 Radiologic Studies . . . 203
47.1.3 Diagnosis . . . 203
47.1.4 Treatment . . . 203
47.1.5 Background . . . 206
47.2 Discussion . . . 206

CASE 48 Transvenous Embolization of a Transverse Sinus Dural Arteriovenous Fistula . . . 207
Timo Krings

48.1 Case Description . . . 207
48.1.1 Clinical Presentation . . . 207
48.1.2 Radiologic Studies . . . 207
48.1.3 Diagnosis . . . 207
48.1.4 Treatment . . . 207
48.2 Discussion . . . 208
48.2.1 Background . . . 208
48.2.2 Noninvasive Imaging Workup . . . 208
48.2.3 Invasive Imaging Workup . . . 209
48.2.4 Treatment Options . . . 209
48.2.5 Possible Complications . . . 210
48.2.6 Published Literature on Treatment Options . . . 210

CASE 49 Transvenous Embolization of an Isolated Sinus through Thrombosed Segment . . . 211
Timo Krings, Sasikhan Geibprasert, and Sirintara (Pongpech) Singhara Na Ayudhaya

49.1 Case Description . . . 211
49.1.1 Clinical Presentation . . . 211
49.1.2 Radiologic Studies . . . 211
49.1.3 Diagnosis . . . 212
49.1.4 Treatment . . . 212
49.2 Discussion . . . 212
49.2.1 Background . . . 212

CASE 54 Combined Direct Puncture and Transarterial Embolization of a Scalp Arteriovenous Malformation 232
Timo Krings and Karel ter Brugge

54.1 Case Description 232
54.1.1 Clinical Presentation 232
54.1.2 Radiologic Studies 232
54.1.3 Diagnosis 232
54.1.4 Treatment 232

54.2 Discussion 233
54.2.1 Background 233
54.2.2 Noninvasive Imaging Workup 234
54.2.3 Invasive Imaging Workup 234
54.2.4 Treatment Options 234
54.2.5 Possible Complications 234
54.2.6 Published Literature on Treatment Options 234

CASE 55 Transarterial Onyx Embolization of a Facial Arteriovenous Malformation 236
Benjamin Fleming, Ronil V. Chandra, Lee-Anne Slater, Ali Khabaza, Julian Maingard, and Hamed Asadi

55.1 Case Description 236
55.1.1 Clinical Presentation 236
55.1.2 Radiologic Studies 236
55.1.3 Diagnosis 236
55.1.4 Treatment 237

55.2 Discussion 237
55.2.1 Background 237
55.2.2 Noninvasive and Invasive Imaging Workup 238
55.2.3 Treatment Options 238
55.2.4 Possible Complications 238
55.2.5 Published Literature on Treatment Options 238

CASE 56 Percutaneous Puncture of a Facial Venous Vascular Malformation with Injection of Bleomycin 240
Timo Krings and Ronit Agid

56.1 Case Description 240
56.1.1 Clinical Presentation 240
56.1.2 Radiologic Studies 240
56.1.3 Diagnosis 240
56.1.4 Treatment 240

56.2 Discussion 240
56.2.1 Background 240
56.2.2 Noninvasive Imaging Workup 241
56.2.3 Invasive Imaging Workup 241
56.2.4 Treatment Options 241
56.2.5 Possible Complications 241
56.2.6 Published Literature on Treatment Options 241

CASE 57 Percutaneous Puncture of a Facial Venous Malformation with Injection of Alcohol 243
Timo Krings and Ronit Agid

57.1 Case Description 243
57.1.1 Clinical Presentation 243
57.1.2 Radiologic Studies 243
57.1.3 Diagnosis 243
57.1.4 Treatment 243

57.2 Discussion 243
57.2.1 Background 243
57.2.2 Noninvasive Imaging Workup 244
57.2.3 Invasive Imaging Workup 244
57.2.4 Treatment Options 244
57.2.5 Possible Complications 244
57.2.6 Published Literature on Treatment Options 245

CASE 58 Transarterial Particle Embolization of a Facial Hemangioma 246
Timo Krings and Karel ter Brugge

58.1 Case Description 246
58.1.1 Clinical Presentation 246

71.2.2 Noninvasive Imaging Workup 302
71.2.3 Invasive Imaging Workup 302
71.2.4 Treatment Options 302
71.2.5 Possible Complications 302
71.2.6 Published Literature on Treatment Options 303

CASE 72 Covered Stenting for Traumatic and Postradiation Carotid Blowouts 304
Marco A. Marangoni, David Volders, and Manraj K.S. Heran

72.1 Case Description 304
72.1.1 Clinical Presentation 304
72.1.2 Radiologic Studies 304
72.1.3 Diagnosis 304
72.1.4 Treatment 304
72.2 Discussion 305
72.2.1 Background 305
72.2.2 Treatment Options 305

CASE 73 Transarterial Particle Embolization for Epistaxis 308
Timo Krings and Karel ter Brugge

73.1 Case Description 308
73.1.1 Clinical Presentation 308
73.1.2 Radiologic Studies 308
73.1.3 Diagnosis 308
73.1.4 Treatment 308
73.2 Discussion 308
73.2.1 Background 308
73.2.2 Noninvasive Imaging Workup 308
73.2.3 Invasive Imaging Workup 309
73.2.4 Treatment Options 309
73.2.5 Possible Complications 310
73.2.6 Published Literature on Treatment Options 310

PART VII: Stroke

CASE 74 Intra-Arterial Recombinant Tissue Plasminogen Activator Thrombolysis in Acute Ischemic Stroke 315
Timo Krings

74.1 Case Description 315
74.1.1 Clinical Presentation 315
74.1.2 Radiologic Studies 315
74.1.3 Diagnosis 315
74.1.4 Treatment 315
74.2 Discussion 316
74.2.1 Background 316
74.2.2 Noninvasive Imaging Workup 317
74.2.3 Invasive Imaging Workup 317
74.2.4 Differential Diagnosis 317
74.2.5 Treatment Options 317
74.2.6 Possible Complications 318
74.2.7 Published Literature on Treatment Options 318

CASE 75 Mechanical Thrombolysis in Acute Stroke with an Aspiration Device 320
Timo Krings

75.1 Case Description 320
75.1.1 Clinical Presentation 320
75.1.2 Radiologic Studies 320
75.1.3 Diagnosis 320
75.1.4 Treatment 320
75.2 Discussion 321
75.2.1 Background 321
75.2.2 Noninvasive Imaging Workup 321
75.2.3 Invasive Imaging Workup 322
75.2.4 Treatment Options 323
75.2.5 Possible Complications 323
75.2.6 Published Literature on Treatment Options 323

CASE 76 Mechanical Thrombectomy in Acute Stroke with a Retrievable Stent 324
Timo Krings and Vitor Mendes Pereira

76.1 Case Description 324
76.1.1 Clinical Presentation 324
76.1.2 Radiologic Studies 324
76.1.3 Diagnosis 325
76.1.4 Treatment 325

76.2 Discussion 326
76.2.1 Background 326
76.2.2 Noninvasive Imaging Workup 326
76.2.3 Treatment Options 326
76.2.4 Possible Complications 326
76.2.5 Published Literature on Treatment Options 326

CASE 77 Stent-Assisted Angioplasty of a Symptomatic Extracranial Internal Carotid Artery Stenosis 328
Timo Krings

77.1 Case Description 328
77.1.1 Clinical Presentation 328
77.1.2 Radiologic Studies 328
77.1.3 Diagnosis 328
77.1.4 Treatment 328

77.2 Discussion 328
77.2.1 Background 328
77.2.2 Noninvasive Imaging Workup 328
77.2.3 Invasive Imaging Workup 329
77.2.4 Treatment Options 329
77.2.5 Possible Complications 330
77.2.6 Published Literature on Treatment Options 330

CASE 78 Stenting of a Symptomatic Postsurgical Internal Carotid Artery Stenosis 332
Timo Krings

78.1 Case Description 332
78.1.1 Clinical Presentation 332
78.1.2 Radiologic Studies 332
78.1.3 Diagnosis 332
78.1.4 Treatment 332

78.2 Discussion 333
78.2.1 Background 333
78.2.2 Noninvasive Imaging Workup 335
78.2.3 Invasive Imaging Workup 335
78.2.4 Treatment Options 335
78.2.5 Possible Complications 335
78.2.6 Published Literature on Treatment Options 335

CASE 79 Intracranial Revascularization with a Self-Expandable Stent 337
Timo Krings

79.1 Case Description 337
79.1.1 Clinical Presentation 337
79.1.2 Radiologic Studies 337
79.1.3 Diagnosis 337
79.1.4 Treatment 337

79.2 Discussion 337
79.2.1 Background 337
79.2.2 Noninvasive Imaging Workup 338
79.2.3 Invasive Imaging Workup 338
79.2.4 Differential Diagnosis 339
79.2.5 Treatment Options 339
79.2.6 Possible Complications 340
79.2.7 Published Literature on Treatment Options 340

CASE 80 Balloon-Mounted Intracranial Stenting of a High-Grade Vertebral Artery Stenosis 342
Timo Krings

80.1 Case Description 342
80.1.1 Clinical Presentation 342
80.1.2 Radiologic Studies 342
80.1.3 Diagnosis 342
80.1.4 Treatment 343

CASE 85 Management of Pediatric Cerebral Aneurysm 367
Timo Krings and Karel ter Brugge

85.1 Case Description 367
85.1.1 Clinical Presentation 367
85.1.2 Radiologic Studies 367
85.1.3 Diagnosis 367
85.1.4 Treatment 367

85.2 Discussion 367
85.2.1 Background 367
85.2.2 Noninvasive Imaging Workup 368
85.2.3 Invasive Imaging Workup 368
85.2.4 Treatment Options 368
85.2.5 Published Literature on Treatment Options 368

CASE 86 Transarterial Embolization of a Dural Sinus Malformation 370
Timo Krings and Karel ter Brugge

86.1 Case Description 370
86.1.1 Clinical Presentation 370
86.1.2 Radiologic Studies 370
86.1.3 Diagnosis 370
86.1.4 Treatment 370

86.2 Discussion 372
86.2.1 Background 372
86.2.2 Noninvasive Imaging Workup 372
86.2.3 Invasive Imaging Workup 373
86.2.4 Treatment Options 373
86.2.5 Possible Complications 373
86.2.6 Published Literature on Treatment Options 373

CASE 87 Endoluminal Flow Diversion for a Pediatric Intracranial Aneurysm 375
Timo Krings and Vitor Mendes Pereira

87.1 Case Description 375
87.1.1 Clinical Presentation 375
87.1.2 Radiologic Studies 375
87.1.3 Diagnosis 375
87.1.4 Treatment 375

87.2 Discussion 376
87.2.1 Background 376
87.2.2 Noninvasive Imaging Workup 377
87.2.3 Invasive Imaging Workup 377
87.2.4 Treatment Options 377
87.2.5 Published Literature on Treatment Options 378

CASE 88 Transarterial Chemoembolization for Retinoblastoma 380
Prakash Muthusami and Ashwin Mallipatna

88.1 Case Description 380
88.1.1 Clinical Presentation 380
88.1.2 Radiologic Studies 380
88.1.3 Diagnosis 380
88.1.4 Treatment 380

88.2 Discussion 381
88.2.1 Background 381
88.2.2 Ophthalmic Imaging Workup 382
88.2.3 Treatment Options 382
88.2.4 Possible Complications of Intra-Arterial Chemotherapy 383

PART IX: Spine Vascular Interventions

CASE 89 Spinal Dural Arteriovenous Fistulas: Successful Arterial Embolization 387
Timo Krings

89.1 Case Description 387
89.1.1 Clinical Presentation 387
89.1.2 Radiologic Studies 387
