A

Adkins superior cartilage–perichondrium composite island graft 180, *181–182*
annular composite graft tympanoplasty 16, 17, *17*, 243–279, *243*
  Borkowski underlay annular graft technique 258–263, *264*, *266–267*
  definition 243
  Goodhill's on-lay annular graft technique 247, *248–249*
  harvesting and shaping of graft *243*, 244–246, *245–246*
  indications 246–247
  Klacansky annular graft technique 258, *260–262*
  malleus absence and 265, *272–273*
  malleus handle abnormalities and 263–265
    missing malleus handle 263–265, *269–271*
    retracted malleus handle 263, *268–269*
  need for research 278–279
  previous applications 244
  results 277–278
  tympanic cavity reconstruction after mastoidectomy 272–277, *274–277*
  type 2 tympanoplasty 247–253, *249–256*
  type 3 tympanoplasty 253–258, *257*, *259*
  U-shaped annular graft *243*, 246
    large inferior perforation 265, *274*
annulus, drilling a hole or groove in 341, *341*
anterior perforation *see* perforation
approaches *see* surgical approaches
atelectasis
  total pars tensa composite graft results 240
  tympanoplasty with U-graft 316–320
    grade 2 atelectasis 316–318, *316–317*
    grade 3 atelectasis 318–320, *318–321*
atresia
  congenital 285, *286*
    crown cork tympanoplasty 286–288, *287*, *288*, *289–290*
    type 2 a 286–288, *286*, *287*
    type 2 b 288, *288*, *289–290*
  postinflammatory acquired solid atresia 285
  postoperative 285
attic approaches 187
attic cartilage–perichondrium composite island graft *see* cartilage–perichondrium composite island grafts
attic cholesteatoma 179, 187
  pathogenesis 224
attic precholesteatoma 177–179, 224
attic retractions 177, *179*
  classification and grading 222–223
  epidemiology 223–224, *223*
  incidence 190
  preventive surgery 186–187
    indications 189
attic wall reconstruction 120, *123*
atticotomy
  closure with broad cartilage palisades 108, *110*
  transmeatal 187
auricle, harvesting cartilage from 42–44, *43*
  conchal cartilage 42–43, *43*
  cymba cartilage 43, *44*
  fossa triangularis cartilage 43–44, *44*
  scapha cartilage 44, *44*
