CONTENTS

I. General Part

1.1 Pre- and Postoperative Treatment 1
- 1.1.1 **Preoperative Treatment** 1
  - Ambulant/In-patient Treatment 1
  - Informed Consent 2
  - Anesthesia 3
  - Laboratory and Imaging Tests 4
  - Preparation for Surgery 4
- 1.1.2 **Postoperative Treatment** 5
  - Ambulant Treatment 5
  - In-patient Treatment 6

1.2 Instruments 7
- 1.2.1 **Abdominal Surgery** 7
  - Scissors 7
  - Clamps 8
  - Needle Holders 10
  - Forceps 11
  - Grasping Instruments 11
  - Cutting Instruments 12
  - Retractors 12
- 1.2.2 **Vaginal Surgery** 13
  - Hegar Dilators 13
  - Forceps and Clamps 13
  - Curettes 14
  - Specula 15
- 1.2.3 **Endoscopic Surgery** 16

1.3 Sutures and Drains 18
- 1.3.1 **Sutures** 18
  - Suture Material 18
  - Knot-Tying Techniques 19
- 1.3.2 **Drains** 20
  - Closed Drain Systems without Suction 20
  - Closed Drain Systems with Suction 21
  - Open Drains without Suction 21

1.4 Positioning 21
- 1.4.1 **Abdominal Procedures** 21
- 1.4.2 **Vaginal Procedures** 22
- 1.4.3 **Laparoscopic Procedures** 22

Wallwiener/Becker, Atlas of Gynecologic Surgery (ISBN 9783136507049), © 2014 Georg Thieme Verlag KG

II. Complications and Their Management

2.1 Bleeding Complications 25
- 2.1.1 Intraoperative Bleeding—Abdominal Procedures 25
- 2.1.2 Intraoperative Bleeding—Vaginal Procedures 26
- 2.1.3 Intraoperative Bleeding—Laparoscopic Procedures 26
- 2.1.4 Postoperative Bleeding 26

2.2 Inflammatory Complications 28
- 2.2.1 Wound Infection 28
- 2.2.2 Peritonitis/Sepsis 28

2.3 Injury to the Urinary Organs 29
- 2.3.1 Bladder Injuries 29
- 2.3.2 Ureteral Injuries 29

2.4 Gastrointestinal Tract Injury 32
- 2.4.1 Small-Bowel Injury 32
- 2.4.2 Large-Bowel Injury 33

2.5 Wound Dehiscence and Hernia 34
- 2.5.1 Wound Dehiscence 34
- 2.5.2 Hernias 35

III. Abdominal Wall

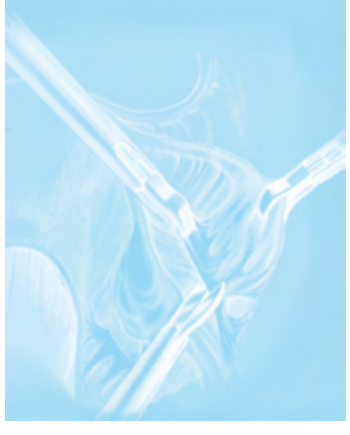

3.1 Laparotomy 37
- 3.1.1 Anatomical Basis 37
- 3.1.2 Opening the Abdomen 38
  - Median Vertical Laparotomy 38
  - Pfannenstiel Transverse Fascial Incision 39
  - Cohen Modification of the Transverse Fascial Incision (Misgav Ladach Method) 40
  - Cherney Suprapubic Transverse Fascial Incision—Transection of the Rectus Attachment 42
  - Suprapubic Maylard Incision 42
  - Separate Opening of Abdominal Layers with Longitudinal Fascial Incision 43
  - Infraumbilical Minilaparotomy 44
  - Technique in Cases of Morbid Obesity 44
- 3.1.3 Closure Techniques 44
  - Peritoneal Suture 44
  - Fascial Suture 44
  - Correction of Defects in the Abdominal Wall 47
  - Relief Sutures in Dehiscence of Abdominal Sutures 48
  - Skin/Subcutaneous Tissue 48

3.2 Laparoscopy 49
- 3.2.1 Anatomic Basis 49
- 3.2.2 Approach to the Abdominal Cavity 50
- 3.2.3 Insertion in Special Operations 53
- 3.2.4 Open Laparoscopy 53
- 3.2.5 Closure of Trocar Insertion Points 54
- 3.2.6 Laparoscopic Retrieval Techniques 54

Wallwiener/Becker, Atlas of Gynecologic Surgery (ISBN 9783136507049), © 2014 Georg Thieme Verlag KG

IV. Adnexa

4.1 Preliminary Remarks about the Region 60

4.1.1 Topography of the Retroperitoneum 60

4.1.1.1 General Anatomy 60

4.1.1.2 Retroperitoneum _*Nerves* 61

4.1.1.3 Retroperitoneal Space _*Vessels* 62

4.1.1.4 Retroperitoneal Space _*Course of the Ureter* 63

4.1.1.5 Retroperitoneal Space _*Lymph Nodes* 64

4.1.2 Functional Pathology 64

4.1.2.1 Ovaries 64

4.1.2.2 Fallopian Tubes 65

4.1.3 Morphologic Pathology—Histology 65

4.1.4 Terminology and Diagnosis 66

4.1.4.1 Stages and Classification of Endometriosis 66

4.1.4.2 Stages of Fallopian Tube Carcinoma 66

4.1.4.3 Stages of Ovarian Cancer 67

4.2 Concepts for Surgical Treatment—Procedure Navigator 68

4.3 Surgical Techniques 82

Abdominal 82

4.3.1.1 Ovarian Wedge Resection, Ovarian Cystectomy, Removal of an Intraligamentous Cyst, Simple Oophorectomy 82

4.3.1.2 Open Salpingo-Oophorectomy 86

4.3.1.3 Open Salpingotomy/Salpingectomy in Ectopic Pregnancy 90

4.3.1.4 Open Sterilization Operations 96

4.3.1.5 Open Infertility Surgery 100

4.3.1.6 Abdominal Surgery of Endometriosis 106

4.3.1.7 Surgery of Malignant Adnexal Tumors/Debulking Operations 111

Vaginal 131

4.3.2.1 Vaginal Salpingo-Oophorectomy 131

Endoscopic 134

4.3.3.1 Laparoscopy—Diagnostic and Minor Operative Procedures 134

4.3.3.2 Laparoscopic Adhesiolysis 139

4.3.3.3 Laparoscopy of Pelvic Inflammatory Disease 142

4.3.3.4 Laparoscopic Fertility Surgery 146

4.3.3.5 Laparoscopic Sterilization 151

4.3.3.6 Laparoscopic Ovarian Cystectomy, Hydatid Removal 155

4.3.3.7 Laparoscopic Ovariopexy 160

4.3.3.8 Laparoscopic Operation for Ovarian Torsion 163

4.3.3.9 Laparoscopic Salpingo-Oophorectomy 166

4.3.3.10 Laparoscopic Removal of Cystic and Solid Adnexal Tumors 170

4.3.3.11 Laparoscopic Removal of an Ectopic Pregnancy 175

4.3.3.12 Laparoscopic Treatment of Endometriosis 182

Wallwiener/Becker, Atlas of Gynecologic Surgery (ISBN 9783136507049), © 2014 Georg Thieme Verlag KG

V. Uterus

5.1 Preliminary Remarks about the Region 192

5.1.1 Topography of Pelvic Spaces 192

5.1.1.1 Classification of the Spaces 192

5.1.1.2 Paravesical Space 193

5.1.1.3 Pararectal Space 193

5.1.1.4 Obturator Fossa 194

5.1.1.5 Rectovaginal Septum 194

5.1.1.6 Presacral Space 195

5.1.1.7 Psoas Space 195

5.1.1.8 Pelvic Retroperitoneum—Nervous Structures 196

5.1.2 Functional Pathology—Developmental Disorders 197

5.1.3 Morphologic Pathology—Histology 198

5.1.4 Terminology and Diagnosis 199

5.1.4.1 Stages of Cervical and Endometrial Carcinoma 199

5.1.4.2 Classification of Gynecologic Malformations 201

5.2 Concepts for Surgical Treatment—Procedure Navigator 203

5.3 Surgical Techniques 221

Abdominal 221

5.3.1.1 Abdominal Myomectomy 221

5.3.1.2 Abdominal Hysterectomy 225

5.3.1.3 Abdominal Supracervical Hysterectomy 232

5.3.1.4 Abdominal Radical Hysterectomy 235

5.3.1.5 Abdominal Lymphadenectomy for a Malignancy of the Internal Genitalia: Para-aortic Lymphadenectomy 246

5.3.1.6 Cesarean Section 250

5.3.1.7 Postpartum Hysterectomy 256

5.3.1.8 Operations for Uterine Malformations 259

Vaginal 262

5.3.2.1 Minor and Diagnostic Procedures 262

5.3.2.2 Curettage and Polypectomy 265

5.3.2.3 Conization 268

5.3.2.4 Laser Therapy of the Cervix, Cryotherapy 272

5.3.2.5 Cervicectomy 275

5.3.2.6 Extirpation of the Cervical Stump 280

5.3.2.7 Vaginal Hysterectomy 283

5.3.2.8 Vaginal Hysterectomy for Uterine/Vaginal Prolapse 294

5.3.2.9 Radical Vaginal Hysterectomy 298

5.3.2.10 Suction Curettage in Abnormal Early Pregnancy 308

5.3.2.11 Operations for Cervical Insufficiency—Cerclage 311

Endoscopic 315

5.3.3.1 Diagnostic Hysteroscopy, Hysteroscopic Biopsy, Hysteroscopic Removal of a Lost IUP/IUD 315

5.3.3.2 Hysteroscopic Septum Dissection, Hysteroscopic Polypectomy, Hysteroscopic Myomectomy 319

5.3.3.3 Hysteroscopic Endometrium Ablation, Hysteroscopic Synechiolysis 324

5.3.3.4 Laparoscopic Myomectomy 329

5.3.3.5 Laparoscopic Hysterectomy 335

5.3.3.6 Laparoscopic Pelvic Lymphadenectomy 342

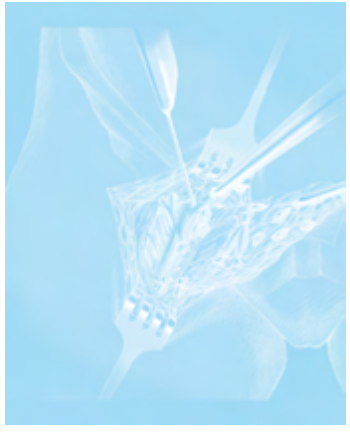

5.3.3.7 Laparoscopic Para-aortic Lymphadenectomy 348

5.3.3.8 Laparoscopic Hysterectomy for Uterine Malignancy 352

Wallwiener/Becker, Atlas of Gynecologic Surgery (ISBN 9783136507049), © 2014 Georg Thieme Verlag KG

VI. Vulva and Vagina

6.1 Preliminary Remarks on the Region 358

6.1.1 Topography of the External Genitalia 358

6.1.1.1 External Vulva 358

6.1.1.2 Subcutaneous Parts of the Vulva: Superficial Perineal Space 359

6.1.1.3 Muscle and Aponeurotic Base of the Vulva 359

6.1.1.4 Blood Supply and Innervation of the Vulva and Vagina 361

6.1.1.5 Deep Muscle and Fascial Layer of the Vulvar Region 362

6.1.1.6 Inguinal Region 363

6.1.2 Functional Pathology—Developmental Disorders 364

6.1.3 Morphological Pathology—Histology 364

6.1.4 Terminology and Diagnosis 366

6.1.4.1 Staging and Treatment of Vulvar Cancer 366

6.1.4.2 Staging and Treatment of Vaginal Cancer 367

6.2 Concepts for Surgical Treatment—Procedure Navigator 368

6.3 Surgical Techniques 378

Abdominal 378

6.3.1.1 Inguinofemoral Lymphadenectomy 378

6.3.1.2 Surgical Treatment of Vaginal Carcinoma 383

Vaginal 386

6.3.2.1 Diagnostic Procedures on the Vulva and Vagina 386

6.3.2.2 Laser Surgery on the Vulva and Vagina 388

6.3.2.3 Surgery of Cysts of the Vulva and Vagina 391

6.3.2.4 Carcinoma in Situ in the Vaginal Stump 395

6.3.2.5 Nonradical Vulvectomy Techniques 397

6.3.2.6 Extended Local Excision of Vulvar Carcinoma 402

6.3.2.7 Radical Total Vulvectomy 405

Reconstructive and Plastic Surgery 412

6.3.3.1 Suture of Episiotomy and First- and Second-Degree Perineal Tears 412

6.3.3.2 Suture of Third- and Fourth-Degree Perineal Tears 424

6.3.3.3 Correction of Old Third- and Fourth-Degree Perineal Tears 429

6.3.3.4 Procedures on the Hymen and Introitus 433

6.3.3.5 Surgery of Vaginal Septa 437

6.3.3.6 Surgery on the Labia and Clitoris 441

6.3.3.7 Coverage of Defects in the Vulva and Vagina I—Transposition Flap and Bulbocavernosus Repair 447

6.3.3.8 Coverage of Defects in the Vulva and Vagina II—Myocutaneous Flaps 451

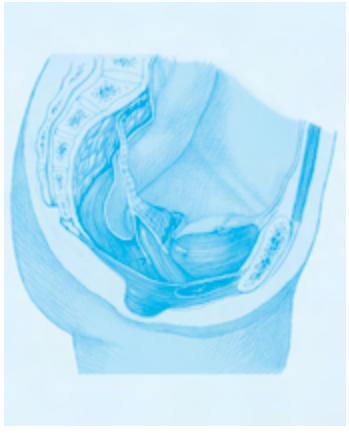

6.3.3.9 Neovagina 459

Wallwiener/Becker, Atlas of Gynecologic Surgery (ISBN 9783136507049), © 2014 Georg Thieme Verlag KG

VII. Pelvic Floor

Position Changes of the Internal Genitalia and Incontinence

7.1 Preliminary Remarks about the Region 476

7.1.1 Topography of the Access Pathways 476

7.1.1.1 Vaginal Approach _*Muscle Layers* 476

7.1.1.2 Vaginal Approach _*Connective Tissue Structures* 478

7.1.1.3 Vaginal Approach _*Vessels, Nerves, Ureter* 479

7.1.1.4 Abdominal Approach _*Muscle Layers* 480

7.1.1.5 Abdominal Approach _*Connective Tissue Structures* 482

7.1.1.6 Abdominal Approach _*Vessels, Nerves, Ureter* 483

7.1.2 Positional Change of Urinary Bladder, Internal Genitalia, Rectum 483

7.1.2.1 Clinical Picture 483

7.1.2.2 Surgically Important Situations 485

7.1.3 Continence and Incontinence 486

7.1.3.1 Clinical Picture 486

7.1.3.2 Surgically Important Situations 487

7.2 Concepts for Surgical Treatment—Procedure Navigator 489

7.3 Surgical Techniques 499

Abdominal 499

7.3.1.1 Abdominal Retropubic Colposuspension Operation 499

7.3.1.2 Abdominal Paravaginal Colpopexy 503

7.3.1.3 Abdominal Colposacropexy (Colpocervicopexy) 506

7.3.1.4 Abdominal Enterocele Operations (Halban, Moschkowitz) 510

7.3.1.5 Abdominal Correction of a Vesicovaginal Fistula 512

Vaginal 518

7.3.2.1 Anterior Colporrhaphy 518

7.3.2.2 Vaginal Paravaginal Colpopexy 522

7.3.2.3 Posterior Colporrhaphy 526

7.3.2.4 Vaginal Sacrospinal Fixation 532

7.3.2.5 Vaginal Uterosacral Fixation 536

7.3.2.6 Vaginal Enterocele Repair 539

7.3.2.7 Colpocleisis 542

7.3.2.8 Suburethral Sling Operations 545

7.3.2.9 Suburethral Heterologous Tension-free Sling Operations (TVT, TVT-O) 548

7.3.2.10 Pelvic Floor Reconstruction with Mesh Implants 554

7.3.2.11 Peri- and Intraurethral Collagen Injection 561

7.3.2.12 Vaginal Correction of a Vesicovaginal Fistula 563

7.3.2.13 Vaginal Correction of a Rectovaginal Fistula 571

Endoscopic 575

7.3.3.1 Laparoscopic Retropubic Colposuspension 575

7.3.2.2 Laparoscopic Paravaginal Colpopexy 579

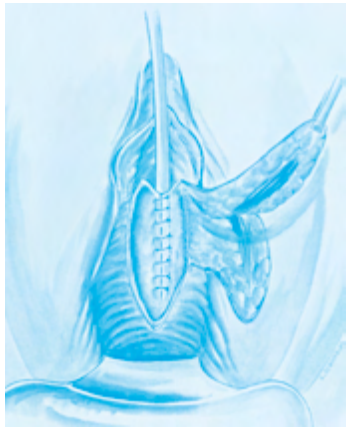

7.3.3.3 Laparoscopic Colposacropexy (Colpocervicopexy) 582

Wallwiener/Becker, Atlas of Gynecologic Surgery (ISBN 9783136507049), © 2014 Georg Thieme Verlag KG

VIII. Gynecologic Oncology, Urogynecology, Proctogynecology: New Surgical Techniques

8.1 Exenterations 589

- **8.1.1 Development of Evisceration Surgery** 589
- **8.1.2 Indications and Contraindications** 589
- **8.1.3 Problems of Operation Technique** 590
- **8.1.4 Errors and Failures** 590
- **8.1.5 Operation Procedures** 591
  - Starting the Operation and Preparation for Exenteration 591
  - Anterior Exenteration 593
  - Perineal Phase/Infralevator Exenteration 598
  - Reconstructive Aspects of Exenteration 600
  - Restoration of Bowel Continuity 603
  - Neovagina 604
- **8.1.6 Systematic Exenteration** 605
- **8.1.7 Complications** 606
- **8.1.8 Concurrent and Postoperative Treatment** 606
- **8.1.9 Limits of the Method** 606

8.2 Gynecology—Urology—Proctology 607

- **8.2.1 Gynecologic Urology** 607
  - Urethral Caruncle 607
  - Urethral Prolapse 607
  - Urethral Diverticulum 609
  - Loss of the Urethra (Neourethra) 611
  - TeLinde Urethroplasty 613
  - Symmonds Urethral Reconstruction 614
  - Symmonds Myocutaneous Labial Flap 616
- **8.2.2 Special Urologic Procedures** 617
  - End-to-End Anastomosis 618
  - Ureteroneocystostomy 619
  - Modified Boari Flap Operation 621
- **8.2.3 Gynecologic Proctology** 626
  - Anatomy and Physiology 626
  - Proctological Examination Techniques 628
  - Disease Conditions 628

8.3 New Techniques 633

- **8.3.1 Electrosurgery** 633
- **8.3.2 Vessel Sealing** 633
- **8.3.3 BiClamp Technique** 634
- **8.3.4 LigaSure** 634
- **8.3.5 Argon Plasma Coagulator** 634
- **8.3.6 SupraLoop** 634
- **8.3.7 UltraCision/Harmonic Scalpel** 634
- **8.3.8 CUSA** 635
- **8.3.9 Robotic Surgery in Gynecology** 635
  - Background/Technology 635
  - Indications, Contraindications, and Patient Selection 635
  - Preoperative Preparation and Patient Positioning 636
  - Trocar Placement and Docking/Undocking of the Robotic System 636
  - Surgical Techniques 637
