Foreword xxv

Nikolai J. Hopf

Preface xxvii

Acknowledgments xxix

Contributors xxxi

1 Mini-pterional: How "Mini" is too Mini and the Next Generation of Keyholes 1

Walter C. Jean, Franco Rubino, Ivo Peto, and Kunal Vakharia

References 3

Part I: Approach Involving the Orbit

2 Endoscopic Supraorbital Approach 7

Andrew Wong and Garni Barkhoudarian

2.1 Introduction 7

2.2 Common Disease Indications for the Technique/Approach, Area of Exposure 7

2.3 Pertinent Anatomy 8

2.4 Brief Description of the Case in the Video 8

2.5 Approach Selection 8

2.6 Operative Setup 9

2.7 Key Steps of the Procedure 9

2.8 Pertinent Risks and Keys to Their Avoidance 10

3 Endoscopic Transorbital Approach to the Anterior Clinoid 13

Alberto Di Somma, Jessica Matas Fassi, Lorena Gómez López, Dario Gagliano, and Joaquim Enseñat

3.1 Introduction 13

3.2 Common Disease Indications for the Technique/Approach, Area of Exposure 13

3.3 Pertinent Anatomy 13

3.4 Brief Description of the Case in the Video 14

3.5 Approach Selection 14

3.6 **Operative Setup: Position, Incision, Bone Opening, Duratomy** 15

3.7 **Key Steps of the Procedure** 15

3.8 **Pertinent Risks and Keys to Their Avoidance** 15

References. 15

4 Endoscopic Transorbital Approach to the Cavernous Sinus and Meckel's Cave 17

Francesco Corrivetti, Chang-Ki Hong, and Matteo de Notaris

4.1 **Introduction** 17

4.2 **Common Disease Indications for the Endoscopic Transorbital Approach: Exposure of the Cavernous Sinus and Meckel's Cave** 17

4.3 **Pertinent Anatomy**. 17

4.4 **Brief Description of the Case in the Video**. 18

4.5 **Approach Selection** 19

4.6 **Operative Setup**. 20

4.7 **Key Steps of the SMILE Technique** 21

4.7.1 Step 1: "S" or Sagittal Crest Resection 21

4.7.2 Step 2: "M" or Meningo-orbital Band Cutting 21

4.7.3 Step 3: "I" or Interdural Dissection of the Cavernous Sinus 21

4.7.4 Step 4: "L" or Lateral Wall of the Cavernous Sinus Exposure 22

4.7.5 Step 5: "E" or Epineurium Dissection 23

4.8 **Pertinent Risks and Keys to Their Avoidance** 23

4.8.1 Skin Phase. 23

4.8.2 Endo-orbital Phase 23

4.8.3 Intracranial Phase 23

References. 23

5 Endoscopic Approach for Cerebrospinal Fluid Leak Repair 25

Matthew Franklin Gliksman, Young Jae Byun, Kunal Vakharia, and Arjun Parasher

5.1 **Introduction** 25

5.2 **Common Indications** 26

5.3 **Clinical Evaluation**. 26

5.4 **Pertinent Anatomy**. 26

5.5 **Brief Description of the Case in the Video**. 27

5.6 **Approach Selection** 28

5.7 **Operative Setup**. 28

5.8 **Key Steps of the Procedure** 28

5.9 **Risks and Keys to Their Avoidance** 29

Part II: Approach to the Sella/Parasellar

6 Endoscopic Endonasal Approach to Sella Turcica 33
Jamie J. Van Gompel

6.1 Introduction 33
6.2 Common Disease Indications for the Technique/Approach, Area of Exposure 33
6.3 Pertinent Anatomy 33
6.4 Brief Description of the Case in the Video 33
6.5 Approach Selection 34
6.6 Operative Setup 34
6.7 Key Steps of the Procedure 34
6.8 Pertinent Risks and Keys to Their Avoidance 35

7 Endoscopic Transsphenoidal Approach/Medial Wall of the Cavernous Sinus 37
Ramin A. Morshed, A. Yohan Alexander, and Maria Peris-Celda

7.1 Introduction 37
7.2 Common Disease Indications for the Technique and Area of Exposure 38
7.3 Pertinent Anatomy 38
7.4 Brief Description of the Case 38
7.5 Approach Selection 40
7.6 Operative Setup 40
7.7 Key Steps of the Procedure 40
7.8 Pertinent Risks and Keys to Their Avoidance 41
References 41

8 Endoscopic Approach to Meckel's Cave 43
Antonio Strangio, Sylvie Nadeau, Martin Côté, and Pierre-Olivier Champagne

8.1 Introduction 43
8.2 Common Disease Indications for the Technique/Approach, Area of Exposure 43
8.3 Pertinent Anatomy 43
8.4 Brief Description of the Case in the Video 44
8.5 Approach Selection 45
8.6 Operative Setup 45
8.7 Key Steps of the Procedure 46
8.8 Pertinent Risks and Keys to Their Avoidance 46
References 47

Part III: Approach to the Anterior Cranial Fossa/Circle of Willis

9 Endoscopic Endonasal Transcribriform/Transplanum Approach 51
Kara A. Parikh, Sanjeet V. Rangarajan, and L. Madison Michael II

9.1 Introduction 51
9.2 Common Disease Indications for the Technique/Approach 51
9.3 Pertinent Anatomy 52
9.4 Brief Description of the Case in the Video 53
9.5 Approach Selection 53
9.6 Operative Setup 53
9.7 Key Steps of the Procedure 53
9.8 Pertinent Risks and Keys to Their Avoidance 54
9.9 Reference 54

10 Endoscopic Endonasal Transtuberculum Approach for Tuberculum Sellae Meningioma 55
Jonathan Sisti, David J. Cote, Robert Grady Briggs, and Gabriel Zada

10.1 Introduction 55
10.2 Common Disease Indications and Area of Exposure 55
10.3 Pertinent Anatomy 56
10.4 Brief Description of the Case(s) in the Video 58
10.5 Approach Selection 58
10.6 Operative Setup 58
10.7 Key Steps of the Procedure 59
10.8 Pertinent Risks and Keys to Their Avoidance 59
References 60

11 Endoscopic Endonasal Approach for Optic Nerve Decompression and Tuberculum Sellae Meningioma 61
Alexander Becker and Andre Beer-Furlan

11.1 Introduction 61
11.2 Common Disease Indications for the Technique/Approach and Area of Exposure 61
11.3 Pertinent Anatomy 62
11.4 Brief Description of the Case in the Video 62
11.5 Approach Selection 63
11.6 Operative Setup 64
11.6.1 Room Layout 64
11.6.2 Patient Positioning 64
11.7 Key Steps of the Procedure 64
11.7.1 Exposure 64
11.7.2 Dissection/Microdrilling 64
11.7.3 Closure 64

from: Jean C. Walter et al, The Art of Refractive Cataract Surgery (9781684206391)

11.8 Pertinent Risks and Keys to Their Avoidance 65

References 65

12 Transfrontal Sinus Keyhole Approach with Gull Wing Incision 67
Edinson Najera, Hayes H. Patrick, Randolph Wojcik, Jr., and Walter C. Jean

12.1 Introduction 67
12.2 Indications 68
12.3 Pertinent Anatomy 68
12.4 Cases in the Video 68
12.4.1 Case Illustration 1: Planum Sphenoidale Meningioma 68
12.4.2 Case Illustration 2: Planum Sphenoidale Meningioma 69
12.5 Approach Selection 70
12.6 Operative Setup 70
12.7 Key Steps of the Procedure 71
12.8 Pertinent Risks and Keys to Their Avoidance 71

References 72

13 Lateral Supraorbital Approach 75
Mani Ratnesh Singh Sandhu, Vratko Himic, Kevin Rudolph, Felix Goehre, and Mario Zanaty

13.1 Introduction 75
13.2 Background to the Keyhole and Endoscopic Approach 75
13.3 Common Disease Indications for the Approach and Area of Exposure 76
13.4 Pertinent Anatomy 76
13.5 Brief Description of the Cases 76
13.6 Approach Selection 78
13.7 Operative Setup 78
13.8 Key Steps of the Procedure 78
13.8.1 First Case: LSO Approach 78
13.8.2 Second Case: Extended LSO (Mini-Pretemporal) Approach 80
13.9 Pertinent Risks and Keys to Their Avoidance 80

References 80

14 The Mini-pterional Approach and Clinoidectomy 81
Francesco Calvanese, Anna Maria Auricchio, Ville Nurminem, and Martin Lehecka

14.1 Introduction 81
14.2 Common Disease Indications for the Technique and Area of Exposure 81
14.3 Pertinent Anatomy 82
14.4 Brief Description of the Case in the Video 84
14.5 Approach Selection 84
14.6 Operative Setup 84
14.7 Key Steps of the Procedure 85

14.8 Pertinent Risks and Keys to Their Avoidance 86

References 86

Part IV: Approaches to the Third Ventricle

15 Endoscopic Endonasal Approach for Craniopharyngioma 91

Nader Delavari, Mattia Testa, Jonathan Alan Tangsrivimol, and Theodore H. Schwartz

15.1 Introduction 91

15.2 Common Disease Indications for the Technique and Area of Exposure 91

15.3 Case 1 92

15.3.1 Pertinent Anatomy 92
15.3.2 Brief Description of the Case in the Video 92
15.3.3 Approach Selection 92
15.3.4 Operative Setup 92
15.3.5 Key Steps of the Procedure 92
15.3.6 Pertinent Risks and Keys to Their Avoidance 93

15.4 Case 2 93

15.4.1 Pertinent Anatomy 93
15.4.2 Brief Description of the Case 93
15.4.3 Approach Selection 93
15.4.4 Operative Setup 93
15.4.5 Key Steps of the Procedure 93
15.4.6 Pertinent Risks and Keys to Their Avoidance 94

References 94

16 Endoscopic Resection of Colloid Cyst 95

Gregory F. Keating and Hasan R. Syed

16.1 Introduction 95

16.2 Common Indications for Endoscopic Resection 95

16.3 Pertinent Anatomy 96

16.4 Selection of Surgical Approach . 96

16.5 Brief Description of the Case in the Video 97

16.6 Operative Setup 97

16.7 Key Steps of the Procedure 97

16.8 Summary of Steps 98

16.9 Perioperative Risks and Complication Avoidance 99

16.10 Conclusion 99

References 99

17 The "Mini"-Transcallosal Approach to the Third Ventricle 101

Hayes H. Patrick, Edinson Najera, and Walter C. Jean

17.1 Introduction 101

17.2 Common Disease Indications for the Technique/Approach and Area of Exposure 101

17.3 Pertinent Anatomy 102

17.4 Brief Description of the Case(s) in the Video 103

from: Jean C. Walter et al, The Art of Refractive Cataract Surgery (9781684206391)

17.5 Approach Selection 104
17.6 Operative Setup 104
17.7 Key Steps of the Procedure 105
17.8 Pertinent Risks and Keys to Their Avoidance 106
References 107

Part V: Approaches to the Pineal Region

18 Endoscopic Paramedian Supracerebellar Infratentorial Approach 111
Kevin Zhao, Peter Nakaji, and Michaela Lee

18.1 Introduction 111
18.2 Common Disease Indications for the Technique/Approach and Area of Exposure 111
18.3 Pertinent Anatomy 111
18.4 Brief Description of the Case 112
18.5 Approach Selection 112
18.6 Operative Setup 113
18.7 Key Steps of the Procedure 113
18.8 Pertinent Risks and Keys to Their Avoidance 114
References 114

19 Keyhole for Combined Pineal Biopsy and Third Ventriculostomy 117
Rafael T. Tatit, Caroline P. Tatit, Nir Shimony, and George Jallo

19.1 Introduction 117
19.2 Common Disease Indications and Area of Exposure 117
19.3 Pertinent Anatomy 118
19.3.1 Foramen of Monro 118
19.3.2 Third Ventricle Floor 118
19.3.3 Choroid Plexus 118
19.3.4 Massa Intermedia (Interthalamic Adhesion) 118
19.3.5 Pineal Gland and Recesses 118
19.3.6 Quadrigeminal Plate 118
19.3.7 Basilar Artery 118
19.3.8 Internal Cerebral Veins and Vein of Galen 118
19.4 Brief Description of the Case ... 118
19.5 Approach Selection 118
19.6 Operative Setup 119
19.7 Key Steps of the Procedure 121
19.7.1 Initial Ventricular Exploration 121
19.7.2 Third Ventriculostomy 121
19.7.3 Pineal Biopsy 121
19.8 Pertinent Risks and Keys to Their Avoidance 121

Part VI: Approaches to Petrous Apex

20 Endoscopic Transpterygoid Translacerum Approach to the Petrous Apex 127
Dan Zimelewicz Oberman, Gustavo Lara Rezende, Matheus Silva Leite, Benicio Oton de Lima, and João Paulo Almeida

20.1 Introduction 127
20.2 Common Disease Indications and Area of Exposure 128
20.3 Pertinent Anatomy 128
20.4 Case Description 131
20.5 Approach Selection 131
20.6 Operative Setup 132
20.7 Key Steps of the Procedure 132
20.8 Pertinent Risks and Keys to Their Avoidance 132
References 133

21 Endoscopic Endonasal Transpterygoid Approaches to the Cavernous Sinus 135
Wesley Shoap, Ramin A. Morshed, Ivan El-Sayed, and Ezequiel Goldschmidt

21.1 Introduction 135
21.2 Common Disease Indications for the Technique/Approach, Area of Exposure 135
21.3 Pertinent Anatomy 136
21.4 Brief Description of the Cases in the Video 136
21.4.1 Case 1 136
21.4.2 Case 2 136
21.5 Neurologic Examination 136
21.6 Approach Selection 136
21.7 Operative Setup: Position, Incision, Bone Opening, Durotomy 138
21.7.1 Necessary Equipment 138
21.7.2 Positioning 138
21.8 Key Steps of the Procedure 138
21.9 Pertinent Risks and Keys to Their Avoidance 138
References 139

22 The "Mini"-Anterior Petrosectomy 141
Walter C. Jean, Peter Harris, and Franco Rubino

22.1 Introduction 141
22.2 Common Diseases and Area of Exposure 141
22.3 Pertinent Anatomy 142
22.4 Brief Description of the Case 142
22.5 Approach Selection 143
22.6 Operative Setup 144
22.7 Key Steps of the Procedure 146

22.8 Pertinent Risks and Keys to Their Avoidance 146
References 146

23 The "Mini" Combined Transpetrosal Approach 149
Arianna Fava, Paolo di Russo, Tingting Jiang, Thibault Passeri, and Sebastien Froelich

23.1 Introduction 149
23.2 Common Disease Indications for the Technique/Approach, Area of Exposure 150
23.3 Pertinent Anatomy 150
23.4 Brief Description of the Case in the Video 150
23.5 Approach Selection 153
23.6 Operative Setup 154
23.7 Key Steps of the Procedure 154
23.7.1 Mastoidectomy and Combined Petrosectomy 154
23.7.2 Dural Opening and Tentorium Cut 154
23.7.3 Closure 156
23.8 Pertinent Risks and Keys to Their Avoidance 156
References 156

Part VII: Approaches to Infratemporal Fossa

24 Endoscopic Endonasal Approach to the Infratemporal Fossa 161
Brandon Rosvall, Georgios A. Zenonos, and Garret Choby

24.1 Introduction 161
24.2 Common Disease Indications for the Technique/Approach and Area of Exposure 161
24.3 Pertinent Anatomy 162
24.4 Brief Description of the Case in the Video 164
24.5 Approach Selection 164
24.6 Operative Setup 164
24.7 Key Steps of the Procedure 164
24.8 Infratemporal Fossa Access and Internal Carotid Artery Exposure 165
24.9 Pertinent Risks and Keys to Their Avoidance 165
References 166

Part VIII: Approaches to the Retrosigmoid/Lateral Suboccipital Region

25 Minimally Invasive Retrosigmoid Intradural Suprameatal Approach 169
Kyriakos Papademetriou, Ehsan Dowlati, Danielle Golub, Timothy White, and Amir R. Dehdashti

25.1 Introduction 169
25.2 Common Disease Indications for the Technique/Approach, Area of Exposure 169

from: Jean C. Walter et al, The Art of Refractive Cataract Surgery (9781684206391)

25.3 Pertinent Anatomy 170
25.3.1 Osseous and Dural Relationships 170
25.3.2 Neural Structures 170
25.3.3 Vascular Structures 170
25.4 Brief Description of the Case in the Video 171
25.5 Approach Selection 171
25.6 Operative Setup 171
25.7 Key Steps of the Procedure 173
25.8 Pertinent Risks and Keys to Their Avoidance 173
References 173

26 Endoscopic-Assisted Retrosigmoid Transmeatal Approach for Vestibular Schwannoma 175
Florian H. Ebner, Sophie Shih-Yueng Wang, Ludovica Fabbrocini, and Marcos Tatagiba

26.1 Introduction 175
26.2 Pertinent Anatomy 175
26.3 Brief Description of the Case in the Video 176
26.4 Approach Selection 177
26.5 Operative Setup 178
26.6 Key Steps of the Procedure 178
26.7 Pertinent Risks and Keys to Their Avoidance 179
26.8 Acknowledgment 179
References 179

27 Endoscopic Microvascular Decompression 181
Sonia Ajmera, Canada Montgomery, Rachel Blue, and John Y.K. Lee

27.1 Introduction 181
27.2 Common Disease Indications and Area of Exposure 181
27.3 Pertinent Anatomy 182
27.4 Brief Description of the Cases in the Video 182
27.4.1 Illustrative Case 1: Trigeminal Neuralgia 182
27.4.2 Illustrative Case 2: Hemifacial Spasm 182
27.5 Approach Selection 183
27.6 Operative Setup 184
27.7 Key Steps of the Procedure 184
27.8 Pertinent Risks, Keys to Their Avoidance, and Limitations 185
References 186

Part IX: Approaches to the Clivus and Craniocervical Region

28 Endoscopic Far-Medial Approach 189
Biren Khimji Patel, Alejandra Rodas, Leonardo Tariciotti, Erion Junior de Andrade, Jackson R. Vuncannon, C. Arturo Solares, and Gustavo Pradilla

28.1 Introduction 189
28.2 Common Disease Indications and Area of Exposure 189
28.3 Pertinent Anatomy 190
28.4 Brief Description of the Cases in the Video 191
28.4.1 Illustrative Case 1 191
28.4.2 Illustrative Case 2 191
28.5 Approach Selection 192
28.6 Operative Setup 193
28.7 Key Steps of the Procedure 193
28.8 Pertinent Risks and Keys to Their Avoidance 194
References 195

29 Endoscopic Transclival Approach 197
A. Karim Ahmed, Nicholas R. Rowan, and Debraj Mukherjee

29.1 Introduction 197
29.2 Common Disease Indications for the Technique/Approach and Area of Exposure 197
29.3 Pertinent Anatomy 197
29.4 Brief Description of the Case in the Video 199
29.5 Approach Selection 201
29.6 Operative Setup 202
29.7 Key Steps of the Procedure 202
29.8 Pertinent Risks and Keys to Their Avoidance 203
References 203

30 Endoscopic Approach to the Fourth Ventricle 205
Franco Rubino, Peter Harris, and Walter C. Jean

30.1 Introduction 205
30.2 Common Disease Indications and Area of Exposure 205
30.3 Pertinent Anatomy 206
30.4 Brief Description of the Case in the Video 209
30.4.1 Illustrative Case 1 209
30.5 Approach Selection 209
30.6 Operative Setup 210
30.7 Key Steps of the Procedure 210
30.8 Pertinent Risks and Keys to Their Avoidance 211

Part X: Supratentorial Approaches

31 Contralateral Transfalcine Approach 215
Ivo Peto, Natalie Jun Bales, and Kunal Vakharia

31.1 Introduction 215
31.2 Common Disease Indications for the Technique/Approach: Area of Exposure 215
31.3 Pertinent Anatomy 216
31.4 Brief Description of the Case in the Video 216
31.5 Approach Selection 217
31.6 Operative Setup 217
31.7 Key Steps of the Procedure 217
31.7.1 Cerebral Relaxation and Preparation 217
31.7.2 Craniotomy and Superior Sagittal Sinus Management 217
31.7.3 Durotomy and Exposure 218
31.7.4 Falx Transection 218
31.7.5 Lesion-Specific Surgical Strategy 219
31.8 Pertinent Risks and Keys to Their Avoidance 219
31.8.1 Surgical Considerations for Falx Transection 219
31.8.2 Falx Transection and Protection of Neurovascular Structures 219
References 219

32 Tubular Transcortical Approaches 221
Muhammet Enes Gurses, Lekhaj Daggubati, Ashish H. Shah, Ricardo J. Komotar, and Michael E. Ivan

32.1 Introduction 221
32.2 Common Disease Indications for the Technique and Area of Exposure 221
32.3 Pertinent Anatomy 222
32.4 Brief Description of the Case in the Video 222
32.5 Approach Selection 223
32.6 Operative Setup 223
32.7 Key Steps of the Procedure 223
32.8 Pertinent Risks and Keys to Their Avoidance 224
