SUBJECT INDEX

Page numbers in *italics* refer to illustrations or tables.

A

abdominal delivery *see* cesarean section
abdominal surgery
  adnexal procedures 69–81
    malignant adnexal tumors/debulking operations 111–131, *116–130*
    minor adnexal surgery 82–86, *84–85*
    see also specific procedures
  endometriosis 106–111, *108–110*
  hysterectomy 225–232, *227–231*
    postpartum 256–259, *257–258*
    radical 235–246, *238–245*
    supracervical 232–235, *234*, 257, 634
  infertility surgery 100–106, *102–105*
  instruments 7–13
  myomectomy 221–225, *223–224*
  para-aortic lymphadenectomy 246–250, *248–249*
  patient positioning 21–22
  pelvic floor reconstruction
    colposacropexy (colpocervicopexy) 506–510, *508–509*
    enterocele operations 510–511, *511*
    paravaginal colpopexy 503–505, *505*
    retropubic colposuspension *480–481*, 499–503, *502*
  salpingo-oophorectomy 86–89, *88–89*
  salpingotomy/salpingectomy in ectopic pregnancy 90–96, *92–95*
  sterilization procedures 96–100, *98–99*
  uterine conditions 204–222
    malformations 259–261, *260–261*
    see also specific procedures
  vesicovaginal fistula correction 512–518, *513–517*
  see also abdominal wall; laparotomy
abdominal wall
  anatomy 37–38, *38*
  closure techniques 44–45
    fascial suture 44, *45–46*
    peritoneal suture 44, *45*
    skin/subcutaneous tissue 48, *48, 49*
  defect correction 47–48
  opening techniques 38–44, *38*
    Cherney suprapubic transverse fascial incision 42, *42*
    Cohen modification (Misgav Ladach method) 40, *41*, 251
    infraumbilical minilaparotomy 44, *44*, 97, *98*
    longitudinal fascial incision 43, *43*
    median longitudinal laparotomy 38, *39*
    obesity and 44
    Pfannenstiel transverse fascial incision 39, *39, 40*
    suprapubic Maylard incision *42*
abortion 207, 310
abscess
  Bartholin gland 370, 392
    surgical treatment 392, *393–394*
  clitoral 391, 392
  colposacropexy and 510, 587
  drainage *145*, 391, 392
  endometriosis surgery and 111, 189
  evisceration surgery and 606
  pelvic inflammatory disease 142, 143, *144*, 145, *145*
  surgical options 78, 369
  tubo-ovarian 78, *78*, 86, 142, 143, 163
  vulval 358, 369, 391, 392
adenocarcinoma
  Bartholin gland 395, 405
  cervical 166, *198*
  evisceration surgery and 590
  ovarian 65
adhesiolysis
  bowel injury and 32
  complications 142, 159
  endometriosis and 69, 70
  fertility assistance 101, *104*, 147, *148*
  indications/contraindications 139
  laparoscopy 135, *136*, 139–142, *140–141*, 147, *148*
  planning 139
  risks/informed consent 139
adhesions 86, 139
  embryonic *89*
  infertility and 73
  physiologic *89*
  postoperative 161, 225, 261, 335
    evisceration surgery 606
  prevention
    adhesion barriers 142
    ovariopexy 161
  recurrence 142
  synechial 324
  uterus *290*
  see also adhesiolysis
adnexa 60
  functional pathology 64–65
  laparoscopic retrieval techniques 54, *55–56, 172–173*
  malformations *201*
  therapeutic goals 68
  see also fallopian tubes; ovaries; *specific disorders*
adnexectomy
  abdominal hysterectomy and 226, *228*, 233, 237
  laparoscopic hysterectomy and 336–337
  vaginal hysterectomy and 285, *293*
  see also oophorectomy; salpingo-oophorectomy
adnexitis 65, 78, *78*, 142, 163
  surgical options 78
adrenogenital syndrome 358, 364, *364*, 371, 441
Adson forceps 11, *11*
agenesis
  cervix *202*
  vagina *202*, 364, 372, 459–460
Allis clamp 13, *13*
ambulant treatment 1–2
  discharge 5
  monitoring 6
amenorrhea 205
  surgical options 205
American Society of Anesthesiology (ASA) risk classification *1*
amnion grasping forceps 11, *11*
amniotic sac
  injury to 314
  prolapse 311, 313, *313, 314*
Amreich–Richter operation *see* sacrospinal fixation
anal canal 626
  skin 626
anal incontinence 425, 428, 629
  causes 629
  diagnosis 629
  treatment 629, *630–632*
  see also fecal incontinence
anal sphincter 360, *360*
  external 626, *626*
    gender differences 626–627, *627*
  internal 626, *626*
  physiology 627
  proctological examination 628
  reconstruction 430, *431*
  suture *427–428*
anal vein thrombosis 628
  treatment *629*
androblastoma 77
anesthesia 3–4
  abdominal open surgery 83
  ASA risk classification *1*
  requirements 3–4
  types of 3, *3*
anorectal ring 626
anterior colporrhaphy *see* colporrhaphy
antibiotic prophylaxis 4, 28
  perineal tear repair 428, 432
antibiotic therapy
  abscess 392
  pelvic inflammatory disease 145
aorta 62
  abdominal 62
aortic bifurcation 61, *61*
aplasia
  fallopian tubes *202*
  vagina 197
appendectomy *121–122*
appendicitis 142
arcuate uterus *202*, 210
  surgical options 210
argon plasma coagulator 634
Asherman syndrome 324, 328

B

Babcock forceps 12, *12*
Backhaus clamp 10, *10*
Bartholin gland 359, *359*, 370

Wallwiener/Becker, Atlas of Gynecologic Surgery (ISBN 9783136507049), © 2014 Georg Thieme Verlag KG

abscess/cyst 370, 391, *393*
surgical treatment 391–395, *393–394*
(adeno)carcinoma 395, 405
bartholinitis 370
β-hCG levels 75, 90, 96, 175, 181
abnormal pregnancy 308, 310
BiClamp technique 285, 634
bicornuate uterus *202*, 209
surgical options 209, 259
biopsy
hysteroscopic 316, *317*
ovarian 83, 135, *137*
portio 262, *263*
sentinel lymph node biopsy, vulval cancer 375, 402, 405, 406
vaginal 386
vulval 386, *387*
complications 388
indications 386
bipolar coagulation 152, *153*, 167, *168–169*
bladder *478, 479, 483*
injuries 29
adhesiolysis 142
cesarean section 255
colporrhaphy 522, 531
colposacropexy 510, 587
conization 272
enterocele surgery 541
extirpation of the cervical stump 282
hysterectomy 232, 294, 307, 342, 355
mesh implants 561
myocutaneous flaps 459
neovagina construction 473
paravaginal colpopexy 506, 525, 582
retropubic colposuspension 503, 578
sacrospinal fixation 535
suburethral sling 548, 554
trachelectomy 280
treatment 29, *30*
vaginal stump 397
vaginal surgery 385
mobilization *229*, 237, *244*
rotatory descensus *487*
ureteral neoimplantation 619–621, *620–621*
voiding disorders *see* incontinence; micturition dysfunction (postoperative)
bladder retractor 12, *12*
bladder–vaginal fistula *see* vesicovaginal fistula
bleeding 272, 280
atonic 256
functional disorders *see specific disorders*
miscarriage and 308, 310
postmenopausal 206, 265
diagnosis 315, *317*
postoperative *see* bleeding complications
premenopausal 315
bleeding complications 25–26
cerclage 314
cesarean section 255
conization 272
ectopic pregnancy treatment 96
episiotomy 424
hysterectomy 232, 235
postpartum hysterectomy 259
radical hysterectomy 246, 307, 355
vaginal hysterectomy 294, 307
hysteroscopy 318, 324, 328
intraoperative bleeding 25–26
abdominal procedures 25
laparoscopic procedures 26
vaginal procedures 26
lymphadenectomy
abdominal para-aortic 250
inguinofemoral 383
laparoscopic para-aortic 351
laparoscopic pelvic 348, 349
management *26, 27*
minor adnexal procedures 86
myocutaneous flaps 459
myomectomy 225, 335
ovarian cancer surgery 130
ovarian cystectomy 159
pelvic floor reconstruction
colporrhaphy 522, 531
colposacropexy 510, 587
enterocele surgery 541
mesh implants 561
paravaginal colpopexy 506, 525, 582
retropubic colposuspension 503, 578
sacrospinal fixation 535
suburethral sling 548
uterosacral fixation 538
postoperative bleeding 26
prevention *26, 27*
salpingo-oophorectomy
laparoscopic 170
vaginal 132
trachelectomy 280
vaginal surgery 385, 395
laser surgery 391
vaginal tear repair 424
vulval surgery 395, 404
see also specific procedures
Boari ureteral replacement technique 621
bowel dysfunction *see* defecation dysfunction
bowel injuries 32–33
conization 272
extirpation of the cervical stump 282
hysterectomy 232
laparoscopic hysterectomy 342, 355
radical hysterectomy 246, 307, 355
vaginal hysterectomy 294, 307
laparoscopy and 139, 170
adhesiolysis 142
hysterectomy 342, 355
lymphadenectomy 351
ovariopexy 163
pelvic inflammatory disease treatment 145
large bowel 33, *33*
neovagina construction 473
pelvic floor reconstruction
colposacropexy 510, 587
enterocele surgery 511, 541
sacrospinal fixation 535
salpingo-oophorectomy 89, 170
small bowel 32, *32*
trachelectomy 280
vaginal stump surgery 397
see also defecation dysfunction (postoperative)
bowel preparation 5
Bowen disease 364, 374
bowenoid papulosis 365, 374
breast cancer 174
Breisky speculum 15, *15*
Brenner tumor *65*
bulbocavernosus repair 447
complications 451
rectovaginal fistula 448, *450*
vesicovaginal fistula 565, *569–570*
bulbospongiosus muscle 359, *359, 362, 477*
Bumm curette 14, *14*
Burch-Cowan colposuspension 500, *501–502*
see also retropubic colposuspension
