–– anatomic considerations **181**
–– indications **181**
–– injection technique **181**, *182*
–– pearls of injection **182**
–– postinjection instructions **181**
–– precautions **181**
–– risks **181**
– for facial volumizing **178**
–– anatomic considerations **178**
–– indications **178**
–– injection technique **178**, *179*
–– pearls of injection **180**
–– postinjection instructions **180**
–– precautions **179**
–– risks **180**
– injection **93**
– precautions **93**
– uses **93**
polymethyl methacrylate (PMMA) **93**, **188**
– anatomic considerations **188**
– composition **93**
– indications **188**
– injection technique **188**, *189*
– pearls of injection **188**
– postinjection instructions **188**
– precautions **93**, **188**
– properties **93**
– risks **188**
– uses **93**
prejowl sulcus 159
procerus muscle 23
profusely sweating feet, *see* feet, sweating
profusely sweating hands, *see* hands, sweating
profusely sweating scalp and forehead, *see* scalp, forehead sweating
profusely sweating underarms, *see* underarms, profusely sweating

R

Radiesse, *see* calcium hydroxylapatite (CaHA); dilute and hyperdilute calcium hydroxylapatite
Refyne 100
Relfydess: relabotulinumtoxinA (BoNTA-Rel) **10**
Renuva **221**
– anatomic considerations **221**
– indications **221**
– injection technique **221**
– pearls of injection **222**
– postinjection instructions **221**
– precautions **221**
– product preparation **221**
– risks **222**
– sample informed consent form for **231**
Restylane products 99–100, 144, 149
retrograde injection method **97**
rhinoplasty, nonsurgical "liquid" **133**
– anatomic considerations **133**
– indications **133**
– injection technique **133**
–– dorsal hump **133**, *134*, *137*
–– drooping tip **133**, *134*
–– saddle nose deformity **133**, *134*
–– twisted/crooked nose **133**, *134*
– pearls of injection **136**
– postinjection instructions **136**
– precautions **133**
"Russian lip" technique **145**

S

saddle nose deformity **133**, *134*
scalp, forehead sweating **79**
– anatomic considerations **79**
– indications **79**
– injection technique **79**, *80*
– pearls of injection **79**
– postinjection instructions **79**
– precautions **79**
– risks **79**
Sculptra, *see* poly-L-lactic acid (PLLA) for décolleté; poly-L-lactic acid (PLLA) for facial volumizing
serial puncture method **97**
skin boosters 97
– *See also* hydration
sleep creases 65
smile lines, crow's feet **29**
– anatomic considerations **29**
– indications **29**
– injection technique **29**, *31*
– pearls of injection **29**
– postinjection instructions **29**
– precautions **29**
– risks **29**
smoker's lines, *see* vertical lip lines
sniffing, asymmetrical 39
starch–iodine test 74, 76
stretch test 174
"string of pearls" injection, *see* serial puncture method
submandibular gland hypertrophy **72**
– anatomic considerations **72**
– indications **72**
– injection technique *71*, **72**
– pearls of injection **72**
– postinjection instructions **72**
– precautions **72**
– risks **72**
submandibular gland injection 62
submental fat reduction **201**
– anatomic considerations *201*, **201**
– indications **201**
– off-label injection technique **201**
– on-label injection technique **201**, *202*
– pearls of injection **203**
– postinjection instructions **202**
– precautions **202**
– risks **203**
sun protection factor (SPF) cream 215
sunken cheeks **127**
– anatomic considerations **127**, *128*
– indications **127**
– injection technique **127**, *128*
– pearls of injection **129**
– postinjection instructions **127**
– precautions **127**
– risks **127**
sunken temples **109**
– anatomic considerations **109**, *110*
– indications **109**
– injection technique **109**
–– calcium hydroxylapatite **109**
–– hyaluronic acid (HA) **109**
–– poly-L-lactic acid **109**
– pearls of injection **110**
– postinjection instructions **109**
– precautions **109**
– risks **110**
sunken upper eyelids **116**
– anatomic considerations **116**
– indications **116**
– injection technique **116**, *117*
– pearls of injection **116**
– postinjection instructions **116**
– precautions **116**
– risks **116**
superficial musculoaponeurotic system (SMAS) 59, 61, 70
supratrochlear artery 114, 195, *196*
swallowing 57, 59
sweating feet, *see* feet, sweating
sweating hands, *see* hands, sweating

T

tear trough deformity **118**
– anatomic considerations **118**
– indications **118**
– injection technique **118**
–– cannula technique **118**
–– needle technique **118**, *119*
– pearls of injection **120**
– postinjection instructions **119**
– precautions **118**
– risks **119**
temples, sunken, *see* sunken temples
temporalis muscle 85, 109
temporomandibular joint (TMJ) pain 56
tension headaches 85
topical anesthetics **94**
topical numbing creams 94
trapezius muscle **68**
– anatomic considerations **68**
– indications **68**
– injection technique **68**, *69*
– pearls of injection **69**
– postinjection instructions **68**
– precautions **68**
– risks **68**
TrenibotE: BoNTE (trenibotulinumtoxinE) **11**
trigeminal nerve 94–95
twisted/crooked nose **133**, *134*
Tyndall effect 152, **194**
– treatment **194**

U

underarms, profusely sweating **76**
– anatomic considerations **76**
– indications **76**
– injection technique **76**, *77–78*
– pearls of injection **76**
– postinjection instructions **76**
– precautions **76**
– risks **76**
Upneeq 88
upper lid ptosis 21, 23, *87*

V

vampire facelift, *see* hyaluronic acid, platelet-rich plasma with
vampire facial, *see* microneedling, platelet-rich plasma adjunct for
vascular compromise **195**
– treatment **195**
vascular necrosis 136
vertical lip lines
– fillers **143**
–– anatomic considerations **143**
–– indications **143**
–– injection technique *49*, **143**
–– pearls of injection **144**
–– postinjection instructions **144**
–– precautions **143**
–– risks **144**
– neurotoxins **48**
–– anatomic considerations **48**
–– indications **48**
–– injection technique **48**, *49*
–– pearls of injection **48**
–– postinjection instructions **48**
–– precautions **48**
–– risks **48**
Volbella 99, 143
Vollure 144, 149
Voluma 99–100
volumization and dermal remodeling **185**
– dilute CaHA (1:1) 185, **185**

X

Xeomin: incobotulinumtoxinA (BoNTA-INC) **10**

Z

zygomaticus major muscle 29, 56
